VOLUME XIV

THE CLEARFIELD PROGRESS, CLEARFIELD, PA. SATURDAY EVENING NOVEMBER 15, 1919

MAKING PROGRESS ON NEW WAGE SCALE
CENTRAL FIELD TO GOVERN ALL OTHERSSCALE COMMITTEES OF
THAT FIELD WILL GO
INTO MATTER AT ONCETHIS DEVELOPMENT AND TELEGRAMS
FROM LEADERS SHOULD RESULT IN
FULL FORCE OUT ON MONDAY

RADICALS TO FORM NEW UNION

WASHINGTON, Nov. 15—Settlement of the controversy between the coal operators and the miners seemed progressing today as representatives of both sides met with Secretary of Labor Wilson in the chair.

WASHINGTON, Nov. 15—Miners and operators reached an agreement today to negotiate a new wage agreement through the scale committee of the Central Competitive field. The scale for other fields will be based on the result of the negotiations of the central field which comprises Indiana, Ohio, Illinois and western Pennsylvania, the heart of the soft coal district.

BROWNSVILLE, Nov. 15—Organization of a new miners' union headed by radicals is being promoted in this district for the purpose of inciting the soft coal strikers. This information given to the United Press by an authority today indicated the leaders of the new movement were identified with a similar attempt several years ago among employees of the Pennsylvania railroad but were thwarted by the brotherhoods. Headquarters of the new union are believed to be in Chicago where it is said a meeting is to be held today. Delay in receiving the cancellation order from Indianapolis and refusal of the miners to return to work has given the new organization foundation to coerce the union men to secede from the present organization and join the new radical institution which it is said will be political as well as economic. Only one small union mine in the Pittsburgh district was in operation today. Operators expressed the belief that the miners would return to their job Monday.

HANDLEY-PAGE BOMBER ALIGHTS AT
KANE TO TAKE ON MORE SUPPLIES

WARREN, PA., Nov. 15—The Handley-Paige bombing plane attempting a non-stop flight from New York to Chicago landed 12 miles east of Kane late yesterday. According to information reaching here the landing was made for the purpose of making repairs and securing supplies. Another start will be attempted today.

SENATE ADOPTS RULE LIMITING
DEBATE ON THE PEACE TREATY

WASHINGTON, Nov. 15—The Senate today voted to limit debate on the peace treaty. The vote was 78 to 16. Eleven Republicans and 5 Democrats voted against the cloture petition.

WASHINGTON, Nov. 15—Working under its self imposed "gag" following adoption of the cloture rule by an overwhelming vote, the Senate today forged ahead in its work at preparing a resolution of ratification on the peace treaty. Two reservations were adopted within an hour after the cloture became effective.

One reservation provides that the mandates not be accepted only by act of Congress.

The other reservation controls the domestic questions such as immigration, tariff and labor.

The Lodge reservation to safeguard the Monroe Doctrine was adopted 55 to 33 after three attempts by the Democrats to order it appealed. This was the third reservation argued on today.

The Shantung reservation was taken up next.

DRANK SOUR BEER
IN BIGLER TOWNSHIP
OLD BREWERY FIND

According to the Modern Times when workmen dismantled the old brewery near that town a quantity of sour beer with a kick like one of H. B. Swoope's mine rules was discovered in one of the old vats. When the news became noised about the Bigler township metropolis the thirsty jag hunters for miles around gathered about the spot and engaged in a Bacchanalian orgy of enormous proportions. The thirsties fought to get at the vile stuff and after they had succeeded and loaded themselves down with it they could not get up and hold they began fighting among themselves, until the good people of the community contemplated calling upon the county authorities for aid as the township constable or sheriff appeared powerless to interfere.

The Modern Times tells the story as follows:
"Since the dismantling of the old

brewery near Dutchtown and the deliberate stealing of the goods and chattels contained therein and thereon of the premises, some party or parties discovered a vat in the cellars of the brewery that contained several gallons of sour beer and soon it was noised about when the men with cast iron stomachs hurried to the scene with buckets and kegs and vessels of all descriptions filling them and carrying them away. Many remained on the grounds and guzzled 'till the fighting spirit prevailed, and reports have it that the bunch did some scrapping. This conduct is a pretty how-do-you-do on the part of those participating in a scene of this character, and our representative contended ought to have been on to his job, arresting first for stealing and second for trespassing. Things of this character ought not to be left go as it does not accrue to the credit of a community wherein such disgrace is committed. A timely warning to the officers of the township is given now, and if no action is taken further publicity will be given to the matter in question.

Forbearance ceases to be a virtue. Wednesday a report reached this office that one man by the name of Siganos had died from the effect of

too freely indulging in sour beer obtained from the vats in the old brewery. Here is a lesson, perhaps, that might teach some of those persons who have a thirst on to have a care what stuff they do drink. If drink they must, drink water."

ANDERSON HUNTING CLUB
READY

Our friend Charley Anderson the successful old buck hunter from Pike township informs The Progress that the Anderson Hunting club boys are going to be on the mountains with bells on again this season and expect as usual to land their share of bucks. The boys have built an addition to their camp on Montgomery, which is now 20x28 feet in size, with a handsome front porch and is located near the finest spring in that region. In the country go "dry," who cares.

Infertile eggs will withstand marring conditions much better than fertile eggs.

Marked hens which you do not wish to carry longer as soon as they stop laying and begin to molt in the late summer or fall.

JUDGE POSTPONES HIS DECISION
CHICAGO WETS ARE DISAPPOINTED

CHICAGO, Nov. 15—Federal Judge Carpenter today postponed until early next week his decision on war time prohibition. The postponement wrecked plans of the wets here for a celebration tonight, in the event of a favorable decision.

PRESBYTERIANS
IMPROVE THEIR
MEETING PLACE

A most unique and very enjoyable service was held at the Presbyterian Church last Sunday morning when a rededication of the edifice was made. The Presbyterian church is undoubtedly the best built and most handsome of the church buildings in the city and the congregation take great pride in seeing that the property is well taken care of. How well they do this duty is evidenced by the ease with which they raised the sum necessary to put the building in first class repair as well as make several substantial and needed improvements.

Last Sunday morning the church was crowded to the doors with members eager to see the church after it had been re-finished. They found the walls and ceiling beautifully frescoed in harmonizing colors which are restful to the eyes and which add greatly to the light and airiness of the room. All the woodwork had been touched up by the painter's magic brush and the whole inside of the church took on an appearance of newness. A new lighting system is being installed and this, when completed will make the Presbyterian Church the envy of all denominations. One of the great improvements in the church proper is the added room which is made for the choir. One row of pews have been taken out and the choir loft extended. The service on Sunday morning was extra fine. The choir was at its best and the augmented congregation added to the joy of the service. Rev. Dr. Reeve the energetic pastor, preached a fine sermon calling upon the members of his flock to rededicate their lives to the service of the church in order that spiritual gain might come from the material outlay.

The greater part of the improvements were made in the Sunday School rooms of the church. This part of the building was changed considerably, one of the principal changes being the further isolation of the primary department from the main school. Roof repairs were also made.

A total of approximately \$10,000 has been spent in putting this old landmark into its shape to give service for another generation and it is all paid for in cash and pledges. With such splendid co-operation on the part of the members and with such able leadership as they have in the person of Dr. E. C. Reeve there are great years of success ahead of the church.

A total of approximately \$10,000 has been spent in putting this old landmark into its shape to give service for another generation and it is all paid for in cash and pledges. With such splendid co-operation on the part of the members and with such able leadership as they have in the person of Dr. E. C. Reeve there are great years of success ahead of the church.

BILLY POWELL HAD TOWN'S
BIGGEST BIRTHDAY

William Powell, Jr., celebrated his sixth birthday this afternoon at the home of his parents, Mr. and Mrs. William F. Powell on West Second Avenue. "Billy" had the biggest birthday party in town, too. In addition to inviting about two dozen of his little friends a general invitation to the fire department and the whole town in general was extended when "Old North" blew out the alarm for a fire at the Powell home at 12:45 o'clock. The fire boys made a quick run to the scene and found several small blazes coming along right merrily on the roof, where sparks from a burning grate had lodged and set fire to the shingles.

The chemical tank on the hook and ladder wagon was called into play and the fire promptly extinguished. "Billy" enjoyed the excitement to the limit and got at the grown folks out of the way soon enough to act as host to his specially invited guests at 1:30 p. m. the scheduled hour for the "doings" to begin.

AMERICAN LEGION
WANTS TO DEPORT
VICTOR BERGER

MINNEAPOLIS, Nov. 11—De-United States of Victor Berger expelled representative from Wisconsin, and the cancellation of his citizenship papers by proper authorities were demands for the deportation from the American Legion in Minneapolis.

In a resolution to that effect which was submitted by the committee on anti-American propaganda, it was declared that "whereas, Victor Berger had been duly tried and convicted of a crime involving moral turpitude and disloyalty to our country," the above measures should be taken.

A storm of cheers went up from the entire delegation. One of the Wisconsin delegates arose and declared that it would be regarded as a signal honor if the Badger state might be allowed to move that the resolution be adopted. The motion was promptly made, seconded and carried in another pandemonium of applause.

Following its adoption another resolution was passed by the anti-American propaganda committee asking for the expulsion of Edward Voight, of Wisconsin from his seat in Congress, declaring he had voted to seat Berger in the House yesterday. Berger was denied his seat by 307 to 1.

A delegate from Oklahoma declared that even though he was not in sympathy with Representative Voight's action he had acted upon his constitutional right. By virtue of this fact he declared the American Legion, which stands by the constitution of the United States could under no circumstances be an organization demanding a government of prejudice. No action was taken upon the Voight resolution.

Political Inhibition Clause

No candidate for or an incumbent of a salaried elective public office shall hold any office in the American Legion or in any branch or post of the organization is clause embodied in the report of the committee on political restrictions which, after lengthy and fiery debate was accepted by the convention.

The report of the majority committee which was not accepted, however, until the word "nonpolitical" had been substituted for "nonpartisan" read, in part as follows:

"While requiring that each of its members shall perform his full duty as a citizen, according to his own conscience and understanding, this organization shall be absolutely nonpartisan and shall not be used for the dissemination of parties and principles or for the promotion of the candidacy of any person seeking public office or preferment."

A delegate from Minnesota declared the word "nonpartisan" was in bad taste in this part of the country and offered an amendment asking that the word "nonpolitical" be substituted. It was necessary to call the roll of a vote, which resulted in 507 favoring the amendment. Pennsylvania voted solidly against it. Thomas E. Devlin of Erie, represented Pennsylvania on the political restrictions committee.

Absolute preferment in the civil service for ex-service men when they are sufficiently qualified was demanded in the report of the committee on employment. It further declared that in the army quartermaster depots and navy commissary stores men were being employed who had never seen military service and demanded that these men be replaced by discharged service men. The report was unanimously accepted.

The League of Nations would have no value unless it had behind it strong nations prepared at a moment's notice to stop aggression. Premier David Lloyd George

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

EVER ON "BAD INDIAN" HUNT?

The boys of Jamestown, N. Y., were in camp this season on Chautauque lake, at Sylvan park, and it was determined to hold an Indian hunt. The camp director was appointed the "Bad Indian," who, with four others had made a successful raid on the camp.

On an appointed morning he and his four followers started out at ten o'clock to hide somewhere in the vicinity. They were to be given three hours' headway.

At one o'clock five scouting parties, each headed by a first class scout, started out from camp to bring in the "Bad Indian" and his followers.

One of the conditions of the hunt was that these Indians should find a place to camp, and must build a fire and keep it burning until six o'clock in the evening, unless they were sooner found by a scouting party.

The feeling "Redskins" located a camp site and masked it on three sides, one of the conditions being that it should be open on the fourth in plain view of all who might happen to pass that way. Then they cut the wood for the day's requirement—not long sticks, but about eight inches in length; and a regular Indian fire was built.

Another condition of the hunt was that the Indians should not leave the place which they selected as their camp, but must stay there until six in the afternoon.

During the day one scouting party passed within 25 feet of the "Bad Indian" camp, and on the open side of their fire, but so intent were they on what was in front of them and so cleverly was the camp laid out that they did not see the "Indians."

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated; if your head is aching; if what you eat sours and forms acid in stomach, or you are bilious, constipated, nervous, sallow and can't get feeling just right, begin inside bathing. Drink before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gases and sour bile before eating more food.

To feel like young folks feel; like you felt before your blood and muscles became loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate, which is inexpensive and almost tasteless.

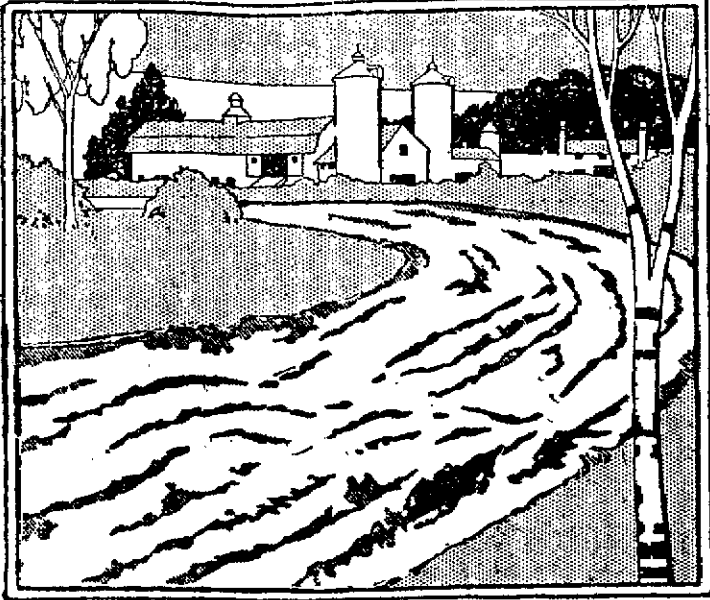

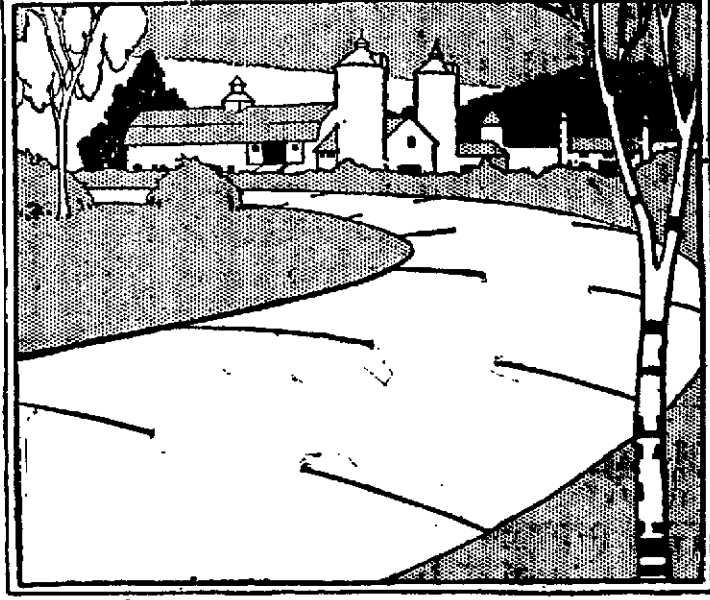

Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast.

WOMAN'S CLUB WILL MEET MONDAY EVENING

The postponed meeting of the Woman's club will be held in the High school library on Monday evening November 17th at eight o'clock.

There will be an interesting program. Mrs. Zerfoss, Leader. Come and get your Year Book.

As It Is As It Seems

The Road—In New Overland 4 on Three-Point Cantilever Springs

YOU expect a bad road to ride as it looks. It did, until the introduction of the Overland 4 Springbase.

Overland 4 does *not* change the road, but it *does* change the *manner* in which you can ride on it. It gives you comfort instead of discomfort. It gives you a smooth, sailing sensation instead of bouncing and swaying.

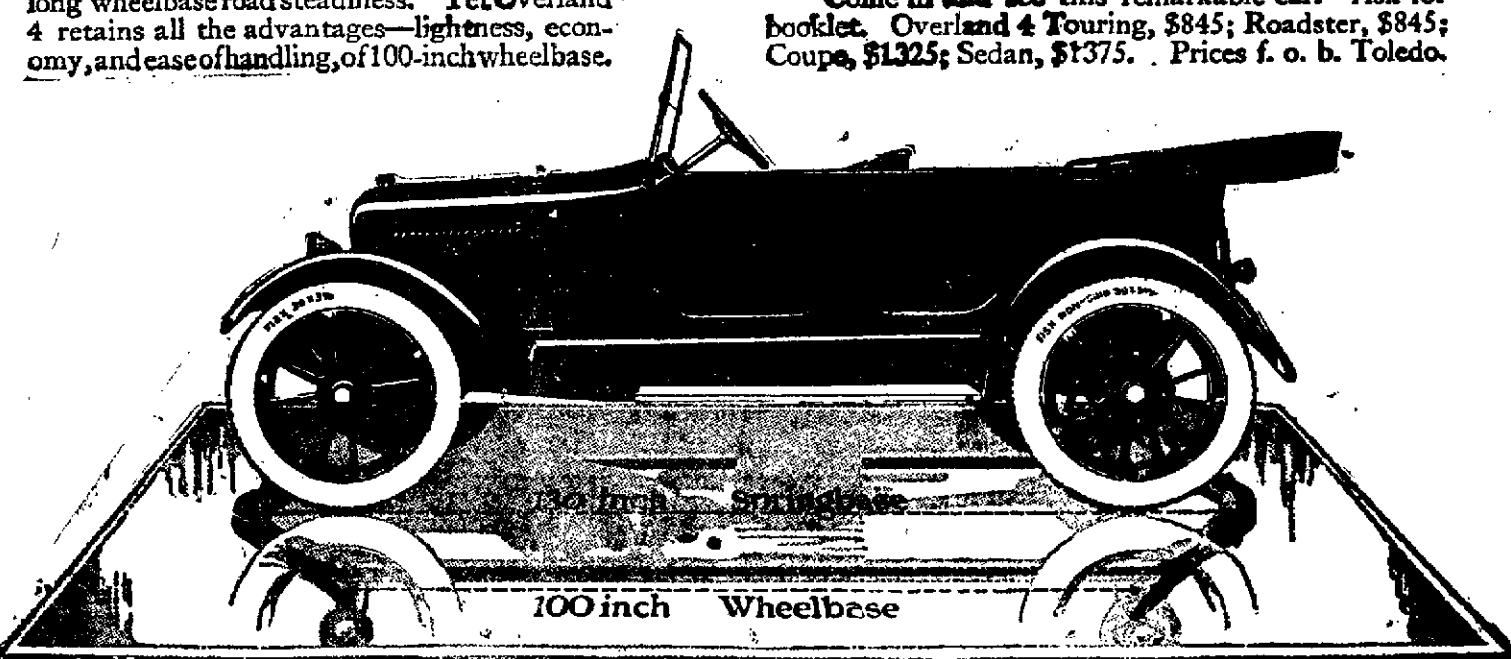

The Diagonal attachment of Three-Point Cantilever Springs at the ends of a 130-inch Springbase gives long wheelbase road steadiness. Yet Overland 4 retains all the advantages—lightness, economy, and ease of handling, of 100-inch wheelbase.

This means an altogether new standard of riding comfort, a noteworthy reduction in the wear and tear which lessens the efficiency of a car. The new springs give longer life to every part and thus minimize upkeep and replacement costs.

Tires wear longer because cushioned against hammering blows. Light weight means marked economy in gas, oil and running expense.

Overland 4's equipment is complete from Auto-Lite Starting and Lighting to Demountable Rims.

Come in and see this remarkable car. Ask for booklet, Overland 4 Touring, \$845; Roadster, \$845; Coupe, \$1325; Sedan, \$1375. Prices f. o. b. Toledo.

Why This Mighty

Thousands Know, But Do Not Appreciate The Extent of Its Leadership

Respect For Essex

It is like reminding the average reader of something he already knows to speak of Essex leadership.

Its position as a popular car filling a heretofore unoccupied field, is accepted as a matter of fact. By word and attitude all motordom acknowledges its position.

But let us consider the reasons for Essex prestige.

You will probably say it is because of its performance. You compare its general appearance and performance with the admirable qualities of other cars. You place no price limit on those cars to which you compare the Essex.

It is because the Essex so nearly matches the standards you hold as your ideal, that it is a leader.

Essex Matches All Requirements

There is ample evidence in every locality to account for what people are saying for the Essex.

It has spoken for itself, just as we announced it would have to do at the time it was put on the market.

It isn't necessary for us to say how fast an Essex can be driven. We don't need to speak of its performance on hills or its comfort and riding qualities. The car has proved itself.

A Well stocked Accessory Room

We have an accessory department that is stocked with everything that the motorist needs. There's a number of things that are distinct novelties and it will pay you to investigate.

And 10,000 owners are daily giving their cars opportunities to prove Essex worth. Added to that are close to half a million motorists who voice their admiration. The most conservative and critical person having knowledge of the Essex is its sponsor.

Time Is Revealing Another Quality

It is showing that the Essex stands up under hard service. It retains the qualities which have created the respect with which it is held.

Squeaks and rattles are not so common. It is rigid and powerful. Little attention is required to keep the Essex in smooth running condition. Every day's use adds to the regard owners have for the Essex.

So Be Guided By What People Say

The best place to find out about the Essex is among those who have had their cars for some time and from the thousands who know Essex performance.

Come see what the Essex can do. If you don't know the Essex, ask your neighbor or come to us and take a ride.

Judge Essex qualities for yourself and remember that sales are so large it will be well for you to place your order as far in advance of the time you will require delivery, as it will be possible for you to do.

Home of The Hudson and Davis

We are not only distributors for the ESSEX but also for the Hudson and Davis cars. These cars are becoming more and more popular every day with discriminating drivers.

First Account of Howard Fry, Guardian of the person and Estate of Guy L. Snyder, Louis Ruth Snyder and Ernest C. Snyder, minor children of Frank Snyder, late of Westover Borough, Clearfield County, Pa., deceased.

ED. B. CHASE, Clerk of Orphans Court.

FEW FOLKS HAVE GRAY HAIR NOW

Well-known local druggist says every body is using old-time recipe of Sage Tea and Sulphur.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

THAT SIX-HOUR DAY

The Telegraph is in receipt of a letter from a Harrisburg woman who signs herself "Machinist's Wife", which contains so much of good humor and witty observation on a vital topic that we shall overlook the usual rule of requiring the real name of the writer to quote a paragraph or two. She writes, concerning the proposed six-hour day:

I'm glad my husband does not have to work twelve hours, as he used to do, but I'm not very keen about this talk of six hours day, five days a week. I think every man ought to have a holiday once every so often, but holidays every day are bad for anybody, I think. And besides, I have a notion of my own, that I know one husband who would want a lot more attention in the way of clean shirts, more elaborate meals and the like if he took time off for more than he is now having. And that brings me right down to hard cases on the woman's side of this argument. With the men working less and less, and suffrage coming along, and more work of a household nature coming along as a result of the shorter working day for men, how about a strike of us women for the six-hour day? Oh, I know you will say, if your husband is home more he would help you more, but I ask you folks, did you ever know a husband who didn't think his wife had an easy thing of it? So, if husbands are becoming so feeble they cannot work more than six hours a day do you suppose weak women are going to keep right on working seven days a week, from 12 to 14 hours a day, while their husky husbands are at the baseball game or bawling around the house for their meals?

And about a half column more of the same sort of observation.

It's a side of the shorter day agitation, we confess, we had not thought about. But it would be embarrassing, would it not, if the joy of our household declined absolutely to provide a meal at 6 in the evening because the husband prepared breakfast at 6 in the morning; or if she refused to feed the baby and put the infant to bed because she had washed, and dressed and fed it in the morning. Decidedly, there are limitations to this six-hour day business, for it appears that what is saved for the gander ought to be saved also for the goose.

Thanks, dear correspondent, you have given us, in our capacity as a faithful and dutiful husband, something to consider. Some of us working men apparently have started something we may have difficulty in finishing.

We may have difficulty in finishing. (Harrisburg Telegraph)

Nation Should Rehabilitate 80,000 Men Ruined Annually by Their Work

By COL. FRANK BILLINGS

We removed from civil life an army of millions. We clothed and fed them and amused them. We took care of them when they were ill and when they were disabled through accident or disease we developed new and remarkably successful methods of rehabilitating them physically and mentally. We made life hopeful and kindly even for the blind—if they were soldiers. Why not extend this idea to civil life? Why not recognize the importance of rehabilitating our fallen soldiers of the army of industry?

The success of the methods of rehabilitating disabled soldiers under the supervision of the war department has been so great that I suggest the initiation of a similar move in industry. The great corporations, the heads of great railroads and factories should interest themselves in these things.

THE BANK THAT PRACTICES THEIFT

The constant growth of the invested capital of this bank is evidence of careful, conservative management.

It has been the policy of the bank for years to re-invest in the business a considerable portion of its annual earnings, thus increasing its usefulness to customers and insuring the safety of their money in the bank.

Under this policy the bank's capital surplus and profits have become \$1,275,000, all but \$225,000 of which has been earned.

The bank that saves its own money is the bank in which to keep your savings.

The Approach in Personal Work

By REV. HOWARD W. POPE
Moody Bible Institute,
Chicago

TEXT—Come and see.—John 1:38.

In what spirit should personal work be done? Do not give the impression that you consider yourself a better man than the one you are dealing with, or that you regard yourself as an expert in the art of soul-winning. Such an impression will surely defeat your purpose.

The only basis on which one can safely approach another is that of a sinner saved by grace, who, having been saved himself, desires to help his fellow men.

While the personal worker should be humble, yet he must not be looking in vainly as to his own salvation; it is not necessary that he should know when he became a Christian, but it is very important that he should know that he is a Christian. So long as one is in doubt as to his own standing in Christ, it is utterly useless for him to try to lead others to Christ.

If it is asked: "Can one know surely that he is a Christian?" the answer is, Paul knew that he was saved (1 Tim. 1:22), and 1 John 5:13 shows that God intends that all his children shall know whose children they are. "These things have I written unto you, that ye may know that ye have eternal life." There are three sure proofs of the believer's sonship.

(a) The witness of God's word. Remember that forgiveness of sin is something that takes place in the mind of God, and not in the emotional nature of the believer. Our first and best evidence of any such transaction, then, must be the testimony of God himself. If he names certain conditions upon which he will forgive sin, and I comply with those conditions, I know that my sins are forgiven, because I have God's word for it. If I accept Jesus Christ as my personal Savior, I know that I have become a child of God, because God's word affirms it. It is not a question of how I feel, but of what God says. The feeling may be wholly lacking, and yet the transaction may be none the less real.

(b) The witness of the Spirit. "The Spirit himself beareth witness with our spirit, that we are children of God" (Rom. 8:16). Let it be clearly understood that the witness of God's word is sufficient to prove that one is a child of God, and that, if one does not believe this witness, he makes God a liar (1 John 5:10). However, the believer is entitled also to the witness of the Spirit, and he should not rest satisfied until he has it. It is a part of his inheritance in Christ Jesus; and, if he has not received it, he should reverently but persistently inquire the reason why.

In some cases where the witness of the Spirit is lacking, it will be found that the person has made no confession of Christ. Matt. 10:32 shows that, when we confess Christ before men, he confesses us before the Father. Rom. 10:9 and 1 John 5:10 would seem to indicate that, when we confess to the world that we have taken Jesus as our Savior, the Spirit witnesses in our hearts that we are saved.

A friend of mine was assisted by a lady at the close of a service, who told him that she had been trying to lead a Christian life for years, but that she had never enjoyed any assurance. She was a woman of intelligence and refinement. He questioned her carefully, but to all his questions she answered with the utmost frankness and candor that she knew of nothing in her life that was displeasing to God. Finally he asked whether she had ever confessed Christ. To his surprise she answered in the negative. She was waiting until she had the inward assurance that she was saved before she made an outward confession of her faith. He showed her from the Bible that she was reversing God's order, which is first confession, and then the witness of the Spirit. The next night she was in the meeting; and, when an opportunity occurred, she arose and quietly said: "Friends, I wish to make a public confession of my faith in Jesus Christ."

The next day my friend met some one on the street, who inquired whether he had heard about Mrs. —.

"No, what about her?"

"Why, last night she went to her neighbor's house, after they had retired, and rang the bell. They opened the window and inquired who was there. She answered: 'It is Mrs. —. I have confessed Christ as my Savior tonight, and I am so happy that I cannot contain myself.'"

(c) The fruit of the Spirit (Gal. 5:22). "The fruit of the Spirit is love, joy, peace, long-suffering, gentleness, goodness, faith, meekness, temperance." This is the evidence that our neighbors will appreciate most, and which ought to be apparent to all. It does not appear at once, however, for fruit grows, and growth requires time, while a gift is bestowed instantly.

Read The Progress.

W. ARMSTRONG PERRY.

He Is to Head the Pioneer Scouts of the Big Brotherhood.

RUB YOUR BACK STOPS LUMBAGO

Don't drag kidneys! Rub the back right out with old St. Jacobs Liniment!

Back hurt you? Can't straighten up without feeling sudden pains, sharp aches and twinges? Now listen! That's lumbago, sciatica, or maybe from a strain, and you'll get blessed relief the moment you rub your back with something penetrating "St. Jacobs Liniment!" Nothing else takes out soreness, lameness and stiffness so quickly. You simply rub it on and out comes the pain. It is perfectly harmless and doesn't burn or discolor the skin.

Lumber up! Don't suffer! Get a small trial bottle from any drug store, and after using it just once, you'll forget that you ever had back-ache, lumbago or sciatica, because your back will never hurt or cause any more misery. It never disappoints and has been recommended for 60 years. Stop dragging kidneys! They don't cause lumbago, because they have no nerve, therefore can not cause pain.

THE RELIABLE SCOUT.

Here's to the steadfast, reliable scout. The scout with the lupine that is true, who won't promise to do any more than he can. But what he does he says he will do. He may not be clever, he is often quite stupid, without either polish or airs; yet though it's not in him to "put up a front," he is there when you need him, he's there.

So here's to the scout of whom one can rely.

And here's to his loving success. May his equine continue, faster multiplied.

And his shadow may it never very less.

LIVE STOCK NOTES

Better neglect the ram's feed and water than his exercise.

The mule has many points to commend him as a farm work animal.

Soon after beginning to eat, colts will want water and a little salt in their feed.

When feeding the mare should have a box stall or pasture lot where she can be all to herself.

No man ever succeeds in building up a great herd of cattle without good pastures, without rich grass lands.

C R E D O!

"I Believe"—What Do You Believe?

Rev. R. E. Bell will begin a series of sermons on the Apostles' Creed—the very foundation of your belief in the Christian church.

EVENING SERVICE

"MY ENEMY" Who is your worst enemy—yourself or someone else?

Generals Bell and Thurston Rally Forces

The armies of the Red and Blue have set themselves in battle array. Zero hour has past. The battle is on. Who will sign an armistice? Peace treaty signed round an Oyster Sapper Banquet table.

CHANDLER SIX

Famous For Its Marvelous Motor

The Most Popular Car for All Seasons

THE family chauffeur, very generally, is going into other fields nowadays. For the family type of closed car has come to stay. It has come to stay and multiply, because it has so well established its place in life.

Expressive of the very best development of the modern closed car is the new series Chandler Sedan—handsome, dignified, beautifully finished and furnished, and most comfortable in all seasons.

This new body reflects the master coach-builder's art and skill in every detail of its design and workmanship. The window posts are a permanent part of the body, adding to its strength and quietness, though the windows may be open or closed or adjusted just as the weather or the wish may dictate. A solid front seat increases the strength of the body. The interior is upholstered in silk plush, and the handsome fittings are of dull silver finish. Seven persons are seated in perfect comfort, or five when the auxiliary chairs are not in use.

The Chandler Car is the most closely priced fine car in America, and a good many people know it. Your early order would serve you against disappointment.

SIX SPLENDID BODY TYPES

Seven-Passenger Touring Car, \$1795 Four-Passenger Roadster, \$1795
Four-Passenger Dispatch Car, \$1875
Seven-Passenger Sedan, \$2295 Four-Passenger Coupe, \$2595
Limousine, \$3295

MARKET STREET CHANDLER MOTOR CAR COMPANY, CLEVELAND, OHIO
CLEARFIELD, PA.

THE ROAD TO SUCCESS

Here Is Your Opportunity!

The Glass Casket Corporation, Altoona, Pa. OFFERS COMMON STOCK AT \$15 PER SHARE

Our Factory Near Completion

Four main buildings of steel and brick construction are entirely erected. The great glass furnace itself is at this date entirely finished, at a cost of \$50,000. The annealing oven is completed. The mold and large press for the production of a six foot casket are ready for delivery. When the work is finally finished, Altoona will have one of the most modern glass plants in America, equipped to manufacture a variety of heavy glass articles, but principally GLASS CASKETS.

A visit to our plant will be well worth your time. It is located in Altoona,—at Thirty-seventh and Beale Avenues. We cordially invite all who may be interested, to inspect this factory,—and if you will notify us will be glad to take you there and extend every courtesy.

GRASP your opportunity NOW!

Apply The Acid Test

The Glass Casket Corporation invites the most rigid investigation. It welcomes visitors to its office and its plant. It will furnish the fullest information by direct word of mouth, by mail, by telephone. You can apply the ACID TEST for yourself.

Ask who are the men at the head of the Corporation. Satisfy yourself that they are ADLE and HONEST; that they have won standing as SUCCESSFUL business men.

Ask what the glass burial casket is. See whether it is what we claim.

Ask just how your money is to be employed and how soon profits may be expected and how large they may be.

Ask EVERY question a careful investor should ask, and do not buy unless you are FULLY satisfied with the information you receive.

We do not fear the verdict.

A Few Hundred Dollars Invested Now May Mean Independence for You

Fortunes Have Been Made by Foresighted Investors in New Enterprises

They "got in on the ground floor" while others looked on and feared the outcome

It is almost impossible to trace the enormous profits received on the dollar of the original investment in the following inventions. Here are a few available figures, that are reliable as far as we are able to ascertain:

\$100 invested in Toledo Glass (Owens Bottle) earned	\$ 13,000
\$100 invested in Burroughs Adding Machine, earned	43,840
\$100 invested in Welsbach Mantle, earned	50,000
\$100 invested in National Cash Register, earned	42,870
\$100 invested in Mergenthaler Linotype, earned	125,000
\$100 invested in Bell Telephone, earned	201,000
\$100 invested in American Radiator, earned	49,000
\$100 invested in Janney Coupler, earned	18,630
\$100 invested in Westinghouse Air Brake, earned	47,836
\$100 invested in Duplex Rubber Tire, earned	50,000
\$100 invested in Underwood Typewriter, earned	38,300
\$100 invested in Eastman Kodak, earned	60,000
\$100 invested in DeLong Hook and Eye, earned	10,000
\$100 invested in Reo, earned	30,000

\$100 invested in Overland, earned	\$ 20,000
\$100 invested in Ford, earned	250,000
\$500 invested in Postum Cereal, earned	50,000
\$500 invested in Cream of Wheat, earned	60,000
\$500 invested in American Sugar Refining, earned	110,300
\$500 invested in Horlick's Malted Milk, earned	140,000
\$1,000 invested in Alcona Rubber, earned	150,000
\$1,000 invested in Fisk Tire, earned	120,000
\$1,000 invested in the Goodyear Co., earned	250,000
\$1,000 invested in Goodrich Tire, earned	605,000
\$1,000 invested in Saxon, returned in 2 years	12,000
\$1,000 invested in Chandler, returned in 3 years	35,000
\$1,000 invested in Stutz, returned in 4 years	45,000
\$1,000 invested in Chalmers, returned in 3 years	21,620
\$1,000 invested in Chevrolet, returned in 7 years	280,000

Only Common Stock will be issued! No Preferred Stock! No Bonds! Every Stockholder will share in Every Cent of the Corporation's Future Investment in this Progress!

MEN YOU CAN TRUST head the Glass Casket Corporation. The officers and directors of our corporation are men of known integrity and ability. They are well known to the banks and business men of Altoona, and enjoy enviable reputation in their own communities.

MAIL THIS TODAY GLASS CASKET CORPORATION

Altoona, Penna.

Gentlemen:—Send me your free booklet, "The Modern Way" giving facts and figures on the glass burial casket and your Corporation's plans for the manufacture of it and other glass articles. This is without obligation to me, of course.

NAME

Address

Large Caskets on Display

Commercial size caskets are on display in our office. Call and see them. They will convince you beyond a question of doubt that glass caskets will absolutely take the place of all metallic, bronze, steel or concrete caskets, for the reason that they will be air-tight, water-tight, and vermin-proof. They will be lighter in weight and far less expensive—and everybody knows that glass will last for ages, while steel or concrete will rust and corrode with time.

Glass caskets will be sold at competition with the best grade of wooden caskets. They are far more beautiful, more sanitary, and equally practical in every way. The weight of a six foot glass casket will be less than 300 pounds, which is approximately the same weight as an oak burial case of the same size.

Pages can't show pictures of the beauties of glass caskets—but a short visit to our offices will convince you that this is YOUR opportunity for a good investment.

Telephone, write or call for the free booklet, "The Modern Way." Do it TODAY. Get the FACTS and FIGURES before you and make your decision. The Glass Casket Corporation gives you a chance to invest your SMALL savings, the "spare change," that otherwise slips through your fingers and is wasted. Our EASY TERMS open up to the man or woman of average income a chance to the MANUFACTURER'S profits that usually are open to the rich.

WEARY WANDERERS
RETURN HOME FULL
OF CANNED PEACHES

A couple of 16-year old Clearfielders are back in the bosoms of their respective families mightily glad to again slide their No. 9's under pap's mahogany three times per when square meal time arrives.

Some few weeks ago these lads decided to see the world or as much hereof as could be properly glimpsed from a car window twist Clearfield and Akron, Ohio, the city of rubber, where all youthful Clearfielder's hike to rubber on their maiden tour of investigation.

The high cost of living in the rubber city soon gobbled up their financial capital and the longer became the interval between meals the shorter appeared the distance back home to the hungry, homesick adventurers.

A council of war last Sunday decided upon a return to home and mother and as railroad tickets were beyond reach the more inconvenient but easier obtainable side door pullman was the means to the now much-desired end. The boys hit a freight to Ashtabula and transferred to the Lake Shore and sneaking into a produce car snuggled down out of sight in a dark corner.

Shortly after the boys got located the trainmen came along, shut and sealed the car and the journey back home was resumed with the lads corked up tight.

Some time Tuesday evening the train rolled into the N. Y. C. yards here and the 48-hour prisoners sure did put up a howl for the purpose of attracting the attention of the yard men to their plight.

The course of the commotion within the car was located and Railroad Officer Hackett, the only man with authority to break the seal of the car, was sent for. He arrived and soon the weary travelers were breathing Clearfield terra firma.

During their enforced detention they lived on a few canned peaches taken from a consignment traveling with them and after settling for the provender were started home rejoicing and promise to never wander from their own fireside again.

Gossip for
Tonight's
Tea Table

Miss Genevieve Halford entertained the F. F. club last evening at her home on Third street. Dainty refreshments were served.

Gilbert Landy, of Pittsburgh, is spending a few days with his fiancée, Miss Esther Robinson.

Mrs. J. M. McKinley, of Curwensville, was shopping in town yesterday. Dick Martin is spending the week end with his parents in Williamsport.

Miss Pearl Orr, of Glen Richey, is spending the week end with Miss Helen O'Brien on Fourth street.

Mr. McCausland, of Houtzdale, is the week end guest of Emory Hartman on Second street.

Mrs. Joe Dunmore and daughter Dorothy, of Phillipsburg, spent yesterday with friends here.

Mr. Rosenbaum, of Philadelphia, was the guest of M. D. Robinson yesterday.

Mrs. and Mrs. A. M. Kirk, of Curwensville, were shopping in town yesterday.

Miss Francis Geppert has returned from visiting with relatives in Atlantic City.

Miss Olive Forcey was shopping in town today.

Miss Alice Truby has returned from spending a few days with friends in Pittsburgh.

Misses Gretchen Hills and Emma Levegood are spending the week end with the former's parents in Jersey Shore.

James Lytle, of Johnstown, transacted business in town yesterday.

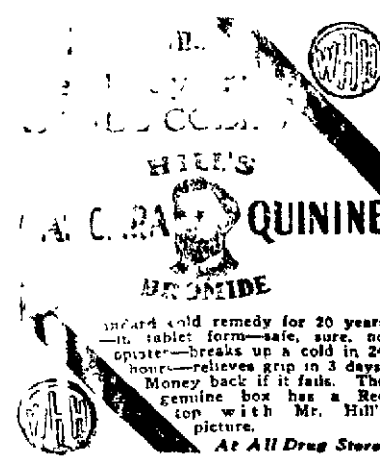

Mrs. B. Pearlman and daughter, Miss Sadie, of Pittsburgh, are guests at the home of Louis Shapiro on Cherry street.

Mrs. Wright Bigler has returned from Pittsburgh, where she attended the D. A. R. Convention.

Mrs. C. R. McQuown arrived yesterday from Canada, and will spend some time with friends and relatives here.

Mrs. E. B. Ferguson and daughter Rebecca are spending the day in Altoona.

Misses Gretchen Hills and Emma

Lovegood entertained last evening at a dinner at the former's home on Second street.

Miss Corinne Rath, of Curwensville, is the week end guest of Miss Amelia Kolbe.

Mrs. Grant Kendrick and son Grant Jr., have returned to their home in Sewickley, after visiting with their parents, Mr. and Mrs. George Johnson.

Miss Katherine Ward, of DuBois, is spending the week end with relatives here.

Miss Hazel Murray, a prominent young lady from Jersey Shore, has accepted a position with the New York Central Railroad Company at this place.

Miss Murray was formerly employed by the Assistant Superintendent of the New York Central Railroad at Jersey Shore.

ODD FELLOWS WILL
WELCOME SERVICE
MEN THURSDAY!

Clearfield Lodge of Odd Fellows are preparing for one of the great functions in the local history of the order and that is saying a great deal as the local lodge has been a leader in successful social affairs in Clearfield fraternalism. Next Thursday evening, November 20th, the lodge will celebrate the home coming of its sixty three service men and formally extend to them a hearty welcome via the banquet table and the speech making route. The affair will be held at the Hotel Dimeling Ball room at eight o'clock. Music will be furnished by Knights Saxophone Orchestra. There will be a program of speeches, and entertainment headed by Fred T. McCallum of Oil City, who is a prominent Odd Fellow and President of the Meadville Orphans Home, one of the notable charities of Odd Fellowship. Mr. McCallum is a speaker of some note.

Wm. P. Sheeder, active in the promulgation of Odd Fellow doctrine will essay the role of Toastmaster. The welcome home to the service men will be held also as the 73rd anniversary of the order in this city and also the one hundredth anniversary of Odd Fellowship throughout the world. In order that all members and their ladies may be present a young lady will be present to take charge of all children for parents wishing to attend. Over three hundred members and friends are expected to be present.

MISS BLANCHE HOOVER DIES

Miss Blanche Hoover, daughter of Mrs. Z. L. Hoover, died at the home of her mother on West Third Avenue at 1 o'clock this morning, aged about 26 years. The deceased had been a sufferer from asthma for some time but her death was rather sudden and unexpected.

She was a consistent member of the Lutheran church and was loved and respected for her fine Christian character by all who knew her.

She is survived by her mother, one brother, Z. Leslie Hoover, of New York and one sister, Miss Cora, at home.

The funeral will occur Monday afternoon from her late home and interment will be made at Lumber City.

TRINITY METHODISTS
CELEBRATE "FATHER
AND SON DAY"

Sunday's services in Trinity church have been planned with special reference to the men and boys of the congregation.

The Sunday school session will open at 9:30 A. M. with L. W. Lawrence directing the music. Mr. Lawrence had a year's experience as camp song leader, and knows the "bug" business. He will be supported by a good orchestra and that means some great music. Howard Stewart will be the acting superintendent for this boys' session and the other several officers of the school will be "manned" by boys from twelve to eighteen years of age.

The morning sermon by the pastor will be especially to the men and boys. The conclusion of the father and son celebration be an elaborate banquet on Tuesday evening at eight o'clock when about two hundred and fifty men and boys will have a delightful social time.

THREE BIRTHDAYS ON SAME
DAY

Mr. and Mrs. Clyde Bailor entertained old Dr. Stork at one o'clock this morning and the old gentleman had again taken his leave and winged his way toward "liddleland" the Bailors found their family had increased one member. This arrival makes the third child in the Bailor family which came into the world on November 15th and that date is getting to be a real family birthday in the Bailor home.

What Do Advertisements
Mean To You?

Do you really appreciate what the advertisements mean to you? They are not there to flaunt this man's and that man's selfish plans for profit.

The advertisement of today is the honest merchant's or manufacturer's best methods of multiplying by thousands of times an interesting message. He has learned from long experience—his own and that of others—that what he has to say must prove interesting and satisfactory to you, else it were better left unsaid. He has learned that his advertising will not pay him unless it tells you about good things that you really want to have.

This is why you will find it profitable to read the advertisements regularly. Perhaps you do. But read them with an appreciation of just what the development of honest, truthful advertising has meant in smoothing out some of the kinks of your daily routine.

Think how much they save you in time, steps, trouble and money in buying things you must have to live a healthy, happy, comfortable, modern life.

THE CLEARFIELD PROGRESS, CLEARFIELD, PA. SATURDAY EVENING NOVEMBER 15, 1919

MAKING PROGRESS ON NEW WAGE SCALE
CENTRAL FIELD TO GOVERN ALL OTHERSSCALE COMMITTEES OF
THAT FIELD WILL GO
INTO MATTER AT ONCETHIS DEVELOPMENT AND TELEGRAMS
FROM LEADERS SHOULD RESULT IN
FULL FORCE OUT ON MONDAY

RADICALS TO FORM NEW UNION

WASHINGTON, Nov. 15—Settlement of the controversy between the coal operators and the miners seemed progressing today as representatives of both sides met with Secretary of Labor Wilson in the chair.

WASHINGTON, Nov. 15—Miners and operators reached an agreement today to negotiate a new wage agreement through the scale committee of the Central Competitive field. The scale for other fields will be based on the result of the negotiations of the central field which comprises Indiana, Ohio, Illinois and western Pennsylvania, the heart of the soft coal district.

BROWNSVILLE, Nov. 15—Organization of a new miners' union headed by radicals is being promoted in this district for the purpose of inciting the soft coal strikers. This information given to the United Press by an authority today indicated the leaders of the new movement were identified with a similar attempt several years ago among employees of the Pennsylvania railroad but were thwarted by the brotherhoods. Headquarters of the new union are believed to be in Chicago where it is said a meeting is to be held today. Delay in receiving the cancellation order from Indianapolis and refusal of the miners to return to work has given the new organization foundation to coerce the union men to secede from the present organization and join the new radical institution which it is said will be political as well as economic. Only one small union mine in the Pittsburgh district was in operation today. Operators expressed the belief that the miners would return to their job Monday.

HANDLEY-PAGE BOMBER ALIGHTS AT
KANE TO TAKE ON MORE SUPPLIES

WARREN, PA., Nov. 15—The Handley-Paige bombing plane attempting a non-stop flight from New York to Chicago landed 12 miles east of Kane late yesterday. According to information reaching here the landing was made for the purpose of making repairs and securing supplies. Another start will be attempted today.

SENATE ADOPTS RULE LIMITING
DEBATE ON THE PEACE TREATY

WASHINGTON, Nov. 15—The Senate today voted to limit debate on the peace treaty. The vote was 78 to 16. Eleven Republicans and 5 Democrats voted against the cloture petition.

WASHINGTON, Nov. 15—Working under its self imposed "gag" following adoption of the cloture rule by an overwhelming vote, the Senate today forged ahead in its work at preparing a resolution of ratification on the peace treaty. Two reservations were adopted within an hour after the cloture became effective.

One reservation provides that the mandates not be accepted only by act of Congress.

The other reservation controls the domestic questions such as immigration, tariff and labor.

The Lodge reservation to safeguard the Monroe Doctrine was adopted 55 to 33 after three attempts by the Democrats to order it appealed. This was the third reservation argued on today.

The Shantung reservation was taken up next.

DRANK SOUR BEER
IN BIGLER TOWNSHIP
OLD BREWERY FIND

According to the Modern Times when workmen dismantled the old brewery near that town a quantity of sour beer with a kick like one of H. B. Swoope's mine rules was discovered in one of the old vats. When the news became noised about the Bigler township metropolis the thirsty jag hunters for miles around gathered about the spot and engaged in a Bacchanalian orgy of enormous proportions. The thirsties fought to get at the vile stuff and after they had succeeded and loaded themselves down with it they could not get up and hold they began fighting among themselves, until the good people of the community contemplated calling upon the county authorities for aid as the township constable or sheriff appeared powerless to interfere.

The Modern Times tells the story as follows:
"Since the dismantling of the old

brewery near Dutchtown and the deliberate stealing of the goods and chattels contained therein and thereon of the premises, some party or parties discovered a vat in the cellars of the brewery that contained several gallons of sour beer and soon it was noised about when the men with cast iron stomachs hurried to the scene with buckets and kegs and vessels of all descriptions filling them and carrying them away. Many remained on the grounds and guzzled 'till the fighting spirit prevailed, and reports have it that the bunch did some scrapping. This conduct is a pretty how-do-you-do on the part of those participating in a scene of this character, and our representative constable ought to have been on to his job, arresting first for stealing and second for trespassing. Things of this character ought not to be left go as it does not accrue to the credit of a community wherein such disgrace is committed. A timely warning to the officers of the township is given now, and if no action is taken further publicity will be given to the matter in question.

Porebearance ceases to be a virtue. Wednesday a report reached this office that one man by the name of Siganos had died from the effect of

too freely indulging in sour beer obtained from the vats in the old brewery. Here is a lesson, perhaps, that might teach some of those persons who have a thirst on to have a care what stuff they do drink. If drink they must, drink water."

ANDERSON HUNTING CLUB
READY

Our friend Charley Anderson the successful old buck hunter from Pike township informs The Progress that the Anderson Hunting club boys are going to be on the mountains with bells on again this season and expect as usual to land their share of bucks. The boys have built an addition to their camp on Montgomery, which is now 20x28 feet in size, with a handsome front porch and is located near the finest spring in that region. Let the country go "dry," who cares.

Infertile eggs will withstand marring conditions much better than fertile eggs.

Marked hens which you do not wish to carry longer as soon as they stop laying and begin to molt in the late summer or fall.

JUDGE POSTPONES HIS DECISION
CHICAGO WETS ARE DISAPPOINTED

CHICAGO, Nov. 15—Federal Judge Carpenter today postponed until early next week his decision on war time prohibition. The postponement wrecked plans of the wets here for a celebration tonight, in the event of a favorable decision.

PRESBYTERIANS
IMPROVE THEIR
MEETING PLACE

A most unique and very enjoyable service was held at the Presbyterian Church last Sunday morning when a rededication of the edifice was made. The Presbyterian church is undoubtedly the best built and most handsome of church buildings in the city and the congregation take great pride in seeing that the property is well taken care of. How well they do this duty is evidenced by the ease with which they raised the sum necessary to put the building in first class repair as well as make several substantial and needed improvements.

Last Sunday morning the church was crowded to the doors with members eager to see the church after it had been re-finished. They found the walls and ceiling beautifully frescoed in harmonizing colors which are restful to the eyes and which add greatly to the light and airiness of the room. All the woodwork had been touched up by the painter's magic brush and the whole inside of the church took on an appearance of newness. A new lighting system is being installed and this, when completed will make the Presbyterian Church the envy of all denominations. One of the great improvements in the church proper is the added room which is made for the choir. One row of pews have been taken out and the choir loft extended. The service on Sunday morning was extra fine. The choir was at its best and the augmented congregation added to the joy of the service. Rev. Dr. Reeve the energetic pastor, preached a fine sermon calling upon the members of his flock to rededicate their lives to the service of the church in order that spiritual gain might come from the material outlay.

The greater part of the improvements were made in the Sunday School rooms of the church. This part of the building was changed considerably, one of the principal changes being the further isolation of the primary department from the main school. Roof repairs were also made.

A total of approximately \$10,000 has been spent in putting this old landmark into its shape to give service for another generation and it is all paid for in cash and pledges. With such splendid co-operation on the part of the members and with such able leadership as they have in the person of Dr. E. C. Reeve there are great years of success ahead of the church.

BILLY POWELL HAD TOWN'S
BIGGEST BIRTHDAY

William Powell, Jr., celebrated his sixth birthday this afternoon at the home of his parents, Mr. and Mrs. William F. Powell on West Second Avenue. "Billy" had the biggest birthday party in town, too. In addition to inviting about two dozen of his little friends a general invitation to the fire department and the whole town in general was extended when "Old North" blew out the alarm for a fire at the Powell home at 12:45 o'clock. The fire boys made a quick run to the scene and found several small blazes coming along right merrily on the roof, where sparks from a burning grate had lodged and set fire to the shingles.

The chemical tank on the hook and ladder wagon was called into play and the fire promptly extinguished. "Billy" enjoyed the excitement to the limit and got at the grown folks out of the way soon enough to act as host to his specially invited guests at 1:30 p. m. the scheduled hour for the "doings" to begin.

AMERICAN LEGION
WANTS TO DEPORT
VICTOR BERGER

MINNEAPOLIS, Nov. 11—De-United States of Victor Berger expelled representative from Wisconsin, and the cancellation of his citizenship papers by proper authorities were demands for the deportation from the American Legion in Minneapolis.

In a resolution to that effect which was submitted by the committee on anti-American propaganda, it was declared that "whereas, Victor Berger had been duly tried and convicted of a crime involving moral turpitude and disloyalty to our country," the above measures should be taken.

A storm of cheers went up from the entire delegation. One of the Wisconsin delegates arose and declared that it would be regarded as a signal honor if the Badger state might be allowed to move that the resolution be adopted. The motion was promptly made, seconded and carried in another pandemonium of applause.

Following its adoption another resolution was passed by the anti-American propaganda committee asking for the expulsion of Edward Voight, of Wisconsin from his seat in Congress, declaring he had voted to seat Berger in the House yesterday. Berger was denied his seat by 307 to 1.

A delegate from Oklahoma declared that even though he was not in sympathy with Representative Voight's action he had acted upon his constitutional right. By virtue of this fact he declared the American Legion, which stands by the constitution of the United States could under no circumstances be an organization demanding a government of prejudice. No action was taken upon the Voight resolution.

Political Inhibition Clause

No candidate for or an incumbent of a salaried elective public office shall hold any office in the American Legion or in any branch or post of the organization is clause embodied in the report of the committee on political restrictions which, after lengthy and fiery debate was accepted by the convention.

The report of the majority committee which was not accepted, however, until the word "nonpolitical" had been substituted for "nonpartisan" read, in part as follows:

"While requiring that each of its members shall perform his full duty as a citizen, according to his own conscience and understanding, this organization shall be absolutely nonpartisan and shall not be used for the dissemination of parties and principles or for the promotion of the candidacy of any person seeking public office or preferment."

A delegate from Minnesota declared the word "nonpartisan" was in bad taste in this part of the country and offered an amendment asking that the word "nonpolitical" be substituted. It was necessary to call the roll of a vote, which resulted in 507 favoring the amendment. Pennsylvania voted solidly against it. Thomas E. Devlin of Erie, represented Pennsylvania on the political restrictions committee.

Absolute preferment in the civil service for ex-service men when they are sufficiently qualified was demanded in the report of the committee on employment. It further declared that in the army quartermaster depots and navy commissary stores men were being employed who had never seen military service and demanded that these men be replaced by discharged service men. The report was unanimously accepted.

The League of Nations would have no value unless it had behind it strong nations prepared at a moment's notice to stop aggression. Premier David Lloyd George

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America)

EVER ON "BAD INDIAN" HUNT?

The boys of Jamestown, N. Y., were in camp this season on Chautauque lake, at Sylvan park, and it was determined to hold an Indian hunt. The camp director was appointed the "Bad Indian," who, with four others had made a successful raid on the camp.

On an appointed morning he and his four followers started out at ten o'clock to hide somewhere in the vicinity. They were to be given three hours' headway.

At one o'clock five scouting parties, each headed by a first class scout started out from camp to bring in the "Bad Indian" and his followers.

One of the conditions of the hunt was that these Indians should find a place to camp, and must build a fire and keep it burning until six o'clock in the evening, unless they were sooner found by a scouting party.

The feeling "Redskins" located a camp site and masked it on three sides, one of the conditions being that it should be open on the fourth in plain view of all who might happen to pass that way. Then they cut the wood for the day's requirement—not long sticks, but about eight inches in length; and a regular Indian fire was built.

Another condition of the hunt was that the Indians should not leave the place which they selected as their camp, but must stay there until six in the afternoon.

During the day one scouting party passed within 25 feet of the "Bad Indian" camp, and on the open side of their fire, but so intent were they on what was in front of them and so cleverly was the camp laid out that they did not see the "Indians."

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated, or your head is aching, or if what you eat seems and forms acid in stomach, or you are bilious, constipated, nervous, sallow and can't get feeling just right, begin inside bathing. Drink before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gases and sour bile before eating more food.

To feel like young folks feel, like you felt before your blood and muscles became loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate, which is inexpensive and almost tasteless.

Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast.

WOMAN'S CLUB WILL MEET MONDAY EVENING

The postponed meeting of the Woman's club will be held in the High school library on Monday evening November 17th at eight o'clock.

There will be an interesting program, Mrs. Zerfoss, Leader. Come and get your Year Book.

CARD OF THANKS

The children of the late Mrs. Van DeWalt take this means of returning their thanks to the many friends and neighbors who so kindly ministered to them during the illness and death of their beloved mother. They appreciate the many kindnesses shown more than words can tell.

FOR YOUR GOOD

There will be Sunday school at 11:00 and 7:30 preaching. Subject for evening "Antichrist." Woodard M. E. Church.

DANCE

Idora Park. Every Saturday night. All round dancing. Gent- one dot. City Service. Everybody invited. N11-2tp. L. R. D. SHARP.

"THERE'S ENTIRELY TOO MUCH CONVERSATION ON THE 5-15 TO SUIT FELIX!"

As It Is

As It Seems

The Road—In New Overland 4 on Three-Point Cantilever Springs

YOU expect a bad road to ride as it looks. It did, until the introduction of the Overland 4 Springbase.

Overland 4 does not change the road, but it does change the manner in which you can ride on it. It gives you comfort instead of discomfort. It gives you a smooth, sailing sensation instead of bouncing and swaying.

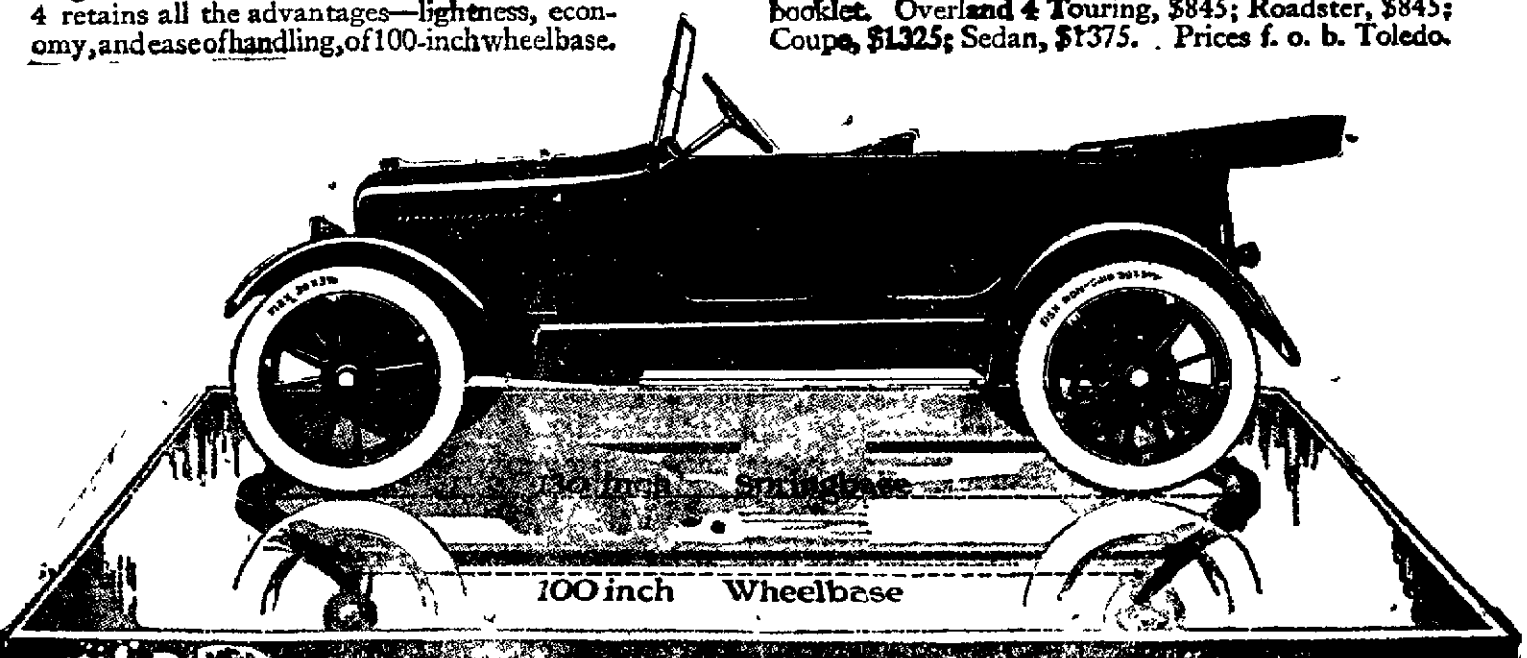

The Diagonal attachment of Three-Point Cantilever Springs at the ends of a 130-inch Springbase gives long wheelbase road steadiness. Yet Overland 4 retains all the advantages—lightness, economy, and ease of handling, of 100-inch wheelbase.

This means an altogether new standard of riding comfort, a noteworthy reduction in the wear and tear which lessens the efficiency of a car. The new springs give longer life to every part and thus minimize upkeep and replacement costs.

Tires wear longer because cushioned against hammering blows. Light weight means marked economy in gas, oil and running expense.

Overland 4's equipment is complete from Auto-Lite Starting and Lighting to Demountable Rims.

Come in and see this remarkable car. Ask for booklet. Overland 4 Touring, \$845; Roadster, \$845; Coupe, \$1325; Sedan, \$1375. Prices f. o. b. Toledo.

Why This Mighty

Thousands Know, But Do Not Appreciate The Extent of Its Leadership

Respect For Essex

It is like reminding the average reader of something he already knows to speak of Essex leadership.

Its position as a popular car filling a heretofore unoccupied field, is accepted as a matter of fact. By word and attitude all motordom acknowledges its position.

But let us consider the reasons for Essex prestige.

You will probably say it is because of its performance. You compare its general appearance and performance with the admirable qualities of other cars. You place no price limit on those cars to which you compare the Essex.

It is because the Essex so nearly matches the standards you hold as your ideal, that it is a leader.

Essex Matches All Requirements

There is ample evidence in every locality to account for what people are saying for the Essex.

It has spoken for itself, just as we announced it would have to do at the time it was put on the market.

It isn't necessary for us to say how fast an Essex can be driven. We don't need to speak of its performance on hills or its comfort and riding qualities. The car has proved itself.

A Well stocked Accessory Room

We have an accessory department that is stocked with everything that the motorist needs. There's a number of things that are distinct novelties and it will pay you to investigate.

And 10,000 owners are daily giving their cars opportunities to prove Essex worth. Added to that are close to half a million motorists who voice their admiration. The most conservative and critical person having knowledge of the Essex is its sponsor.

Time Is Revealing Another Quality

It is showing that the Essex stands up under hard service. It retains the qualities which have created the respect with which it is held.

Squeaks and rattles are not so common. It is rigid and powerful. Little attention is required to keep the Essex in smooth running condition. Every day's use adds to the regard owners have for the Essex.

So Be Guided By What People Say

The best place to find out about the Essex is among those who have had their cars for some time and from the thousands who know Essex performance.

Come see what the Essex can do. If you don't know the Essex, ask your neighbor or come to us and take a ride.

Judge Essex qualities for yourself and remember that sales are so large it will be well for you to place your order as far in advance of the time you will require delivery, as it will be possible for you to do.

Home of The Hudson and Davis

We are not only distributors for the ESSEX but also for the Hudson and Davis cars. These cars are becoming more and more popular every day with discriminating drivers.

FEW FOLKS HAVE GRAY HAIR NOW

Well-known local druggist says every body is using old-time recipe of Sage Tea and Sulphur.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

THAT SIX-HOUR DAY

The Telegraph is in receipt of a letter from a Harrisburg woman who signs herself "Machinist's Wife", which contains so much of good humor and witty observation on a vital topic that we shall overlook the usual rule of requiring the real name of the writer to quote a paragraph or two. She writes, concerning the proposed six-hour day:

I'm glad my husband does not have to work twelve hours, as he used to do, but I'm not very keen about this talk of six hours day, five days a week. I think every man ought to have a holiday once every so often, but holidays every day are bad for anybody, I think. And besides, I have a notion of my own, that I know one husband who would want a lot more attention in the way of clean shirts, more elaborate meals and the like if he took time off for more than he is now having. And that brings me right down to hard cases on the woman's side of this argument. With the men working less and less, and suffrage coming along, and more work of a household nature coming along as a result of the shorter working day for men, how about a strike of us women for the six-hour day? Oh, I know you will say, if your husband is home more he would help you more, but I ask you folks, did you ever know a husband who didn't think his wife had an easy thing of it? So, if husbands are becoming so feeble they cannot work more than six hours a day do you suppose weak women are going to keep right on working seven days a week, from 12 to 14 hours a day, while their husky husbands are at the baseball game or bawling around the house for their meals?

And about a half column more of the same sort of observation.

It's a side of the shorter day agitation, we confess, we had not thought about. But it would be embarrassing, would it not, if the joy of our household declined absolutely to provide a meal at 6 in the evening because the husband prepared breakfast at 6 in the morning; or if she refused to feed the baby and put the infant to bed because she had washed, and dressed and fed it in the morning. Decidedly, there are limitations to this six-hour day business, for it appears that what is saved for the gander ought to be saved also for the goose.

Thanks, dear correspondent, you have given us, in our capacity as a faithful and dutiful husband, something to consider. Some of us working men apparently have started something we may have difficulty in finishing.

(Harrisburg Telegraph)

Nation Should Rehabilitate 80,000 Men Ruined Annually by Their Work

By COL. FRANK BILLINGS

We removed from civil life an army of millions. We clothed and fed them and amused them. We took care of them when they were ill and when they were disabled through accident or disease we developed new and remarkably successful methods of rehabilitating them physically and mentally. We made life hopeful and kindly even for the blind—if they were soldiers. Why not extend this idea to civil life? Why not recognize the importance of rehabilitating our fallen soldiers of the army of industry?

The success of the methods of rehabilitating disabled soldiers under the supervision of the war department has been so great that I suggest the initiation of a similar move in industry. The great corporations, the heads of great railroads and factories should interest themselves in these things.

THE BANK THAT PRACTICES THEIFT

The constant growth of the invested capital of this bank is evidence of careful, conservative management.

It has been the policy of the bank for years to re-invest in the business a considerable portion of its annual earnings, thus increasing its usefulness to customers and insuring the safety of their money in the bank.

Under this policy the bank's capital surplus and profits have become \$1,275,000, all but \$225,000 of which has been earned.

The bank that saves its own money is the bank in which to keep your savings.

The Approach in Personal Work

By REV. HOWARD W. POPE
Moody Bible Institute,
Chicago

TEXT—Come and see.—John 1:38.

In what spirit should personal work be done? Do not give the impression that you consider yourself a better man than the one you are dealing with, or that you regard yourself as an expert in the art of soul-winning. Such an impression will surely defeat your purpose.

The only basis on which one can safely approach another is that of a sinner saved by grace, who, having been saved himself, desires to help his fellow men.

While the personal worker should be humble, yet he must not be looking in vainly as to his own salvation; it is not necessary that he should know when he became a Christian, but it is very important that he should know that he is a Christian. So long as one is in doubt as to his own standing in Christ, it is utterly useless for him to try to lead others to Christ.

If it is asked: "Can one know surely that he is a Christian?" the answer is, Paul knew that he was saved (1 Tim. 1:22), and 1 John 5:13 shows that God intends that all his children shall know whose children they are. "These things have I written unto you, that ye may know that ye have eternal life." There are three sure proofs of the believer's sonship.

(a) The witness of God's word. Remember that forgiveness of sin is something that takes place in the mind of God, and not in the emotional nature of the believer. Our first and best evidence of any such transaction, then, must be the testimony of God himself. If he names certain conditions upon which he will forgive sin, and I comply with those conditions, I know that my sins are forgiven, because I have God's word for it. If I accept Jesus Christ as my personal Savior, I know that I have become a child of God, because God's word affirms it. It is not a question of how I feel, but of what God says. The feeling may be wholly lacking, and yet the transaction may be none the less real.

(b) The witness of the Spirit. "The Spirit himself beareth witness with our spirit, that we are children of God" (Rom. 8:16). Let it be clearly understood that the witness of God's word is sufficient to prove that one is a child of God, and that, if one does not believe this witness, he makes God a liar (1 John 5:10). However, the believer is entitled also to the witness of the Spirit, and he should not rest satisfied until he has it. It is a part of his inheritance in Christ Jesus; and, if he has not received it, he should reverently but persistently inquire the reason why.

In some cases where the witness of the Spirit is lacking, it will be found that the person has made no confession of Christ. Matt. 10:32 shows that, when we confess Christ before men, he confesses us before the Father. Rom. 10:9 and 1 John 5:10 would seem to indicate that, when we confess to the world that we have taken Jesus as our Savior, the Spirit witnesses in our hearts that we are saved.

A friend of mine was assisted by a lady at the close of a service, who told him that she had been trying to lead a Christian life for years, but that she had never enjoyed any assurance. She was a woman of intelligence and refinement. He questioned her carefully, but to all his questions she answered with the utmost frankness and candor that she knew of nothing in her life that was displeasing to God. Finally he asked whether she had ever confessed Christ. To his surprise she answered in the negative. She was waiting until she had the inward assurance that she was saved before she made an outward confession of her faith. He showed her from the Bible that she was reversing God's order, which is first confession, and then the witness of the Spirit. The next night she was in the meeting; and, when an opportunity occurred, she arose and quietly said: "Friends, I wish to make a public confession of my faith in Jesus Christ."

The next day my friend met some one on the street, who inquired whether he had heard about Mrs. —.

"No, what about her?"

"Why, last night she went to her neighbor's house, after they had retired, and rang the bell. They opened the window and inquired who was there. She answered: 'It is Mrs. —. I have confessed Christ as my Savior tonight, and I am so happy that I cannot contain myself.'"

(c) The fruit of the Spirit (Gal. 5:22). "The fruit of the Spirit is love, joy, peace, long-suffering, gentleness, goodness, faith, meekness, temperance." This is the evidence that our neighbors will appreciate most, and which ought to be apparent to all. It does not appear at once, however, for fruit grows, and growth requires time, while a gift is bestowed instantly.

Read The Progress.

W. ARMSTRONG PERRY.

He Is to Head the Pioneer Scouts of the Big Brotherhood.

LIVE STOCK NOTES

Better neglect the ram's feed and water than his exercise.

The mule has many points to commend him as a farm work animal.

Soon after beginning to eat, colts will want water and a little salt in their feed.

When feeding the mare should have a box stall or pasture lot where she can be all to herself.

No man ever succeeds in building up a great herd of cattle without good pastures, without rich grass lands.

RUB YOUR BACK STOPS LUMBAGO

Don't drag kidneys! Rub the back right out with old St. Jacobs Liniment!

Back hurt you? Can't straighten up without feeling sudden pains, sharp aches and twinges? Now listen! That's lumbago, sciatica, or maybe from a strain, and you'll get blessed relief the moment you rub your back with something penetrating "St. Jacobs Liniment!" Nothing else takes out soreness, lameness and stiffness so quickly. You simply rub it on and out comes the pain. It is perfectly harmless and doesn't burn or discolor the skin.

Lumber up! Don't suffer! Get a small trial bottle from any drug store, and after using it just once, you'll forget that you ever had back-ache, lumbago or sciatica, because your back will never hurt or cause any more misery. It never disappoints and has been recommended for 60 years. Stop dragging kidneys! They don't cause lumbago, because they have no nerve, therefore can not cause pain.

THE RELIABLE SCOUT.

Here's to the steadfast, reliable scout. The scout with the lupine that is true, who won't promise to do any more than he can.

But what he does he says he will do. He may not be clever, he is often quite stupid, without either polish or airs; yet though it's not in him to "put up a front,"

He is there when you need him, he's there when you don't need him, he's there when you don't need him, he's there when you don't need him.

So here's to the scout of whom one can rely.

And here's to his loving success. May his epaulet continue, under multi-ple.

And his shadow may it never very less.

Famous For Its Marvelous Motor

The Most Popular Car for All Seasons

THE family chauffeur, very generally, is going into other fields nowadays. For the family type of closed car has come to stay. It has come to stay and multiply, because it has so well established its place in life.

Expressive of the very best development of the modern closed car is the new series Chandler Sedan—handsome, dignified, beautifully finished and furnished, and most comfortable in all seasons.

This new body reflects the master coach-builder's art and skill in every detail of its design and workmanship. The window posts are a permanent part of the body, adding to its strength and quietness, though the windows may be open or closed or adjusted just as the weather or the wish may dictate. A solid front seat increases the strength of the body. The interior is upholstered in silk plush, and the handsome fittings are of dull silver finish. Seven persons are seated in perfect comfort, or five when the auxiliary chairs are not in use.

The Chandler Car is the most closely priced fine car in America, and a good many people know it. Your early order would serve you against disappointment.

SUNDAY SCHOOL LESSON

By REV. P. R. FITZPATRICK, D. D.,
Teacher of English Bible in the Moody Bible Institute of Chicago.
(Copyright, 1919, Western Newspaper Union)

LESSON FOR NOVEMBER 16

WITNESSES OF CHRIST'S GLORY.

LESSON TEXT—Luke 9:28-36.
GOLDEN TEXT—This is my beloved Son; hear ye him.—Mark 9:7.
ADDITIONAL MATERIAL—Matt. 17:1-8; Mark 9:2-8; Luke 9:28-36.
PRIMARY AND JUNIOR TOPIC—Peter and John with Jesus on the mountain.
SENIOR AND ADULT TOPIC—The glory of Jesus Christ.

While it is true that in this lesson the disciples are witnesses of Christ's glory, the full truth is that the manifestation of Christ in glory was to give to the discouraged disciples a foretaste of the Messianic Kingdom. The hopes of the disciples were crushed when Christ announced his death on the cross. They were unable to see how victory could issue from death.

Jesus took with him Peter, James, and John, and went into the mountain to pray. His chief aim in retirement was to get the disciples apart into a state of receptivity so that he might show them the method of the Kingdom. Before going to the mountain he declared that there were some standing in his presence who would not taste of death till they should see the Son of Man coming in his Kingdom (Luke 9:27; Matt. 16:28). That their drooping spirits might be revived and their confidence restored, he is transfigured before them. Two men from the upper world are sent to converse with him about his approaching death in Jerusalem (v. 31)—the very thing about which the disciples refused to talk.

Then, too, God's own voice was heard in words of approval of Christ's course, directing them to hear the Master. Surely they cannot doubt his ability now to carry into execution his kingdom plans. The purpose, then, of the transfiguration is to give the disciples a foretaste of the coming Kingdom, to enable them to see the Kingdom in glory. That this is true is not only shown by the context and circumstances, but by the inspired interpretation of one who was with him and knew all that happened. Peter said, "For we did not follow cunningly devised fables when we made known unto you the power and coming of our Lord Jesus Christ, but we were eye-witnesses of his majesty, for he received of God the Father, honor and glory when there came such a voice to him from the excellent glory. This is my beloved Son in whom I am well pleased; and this voice we ourselves heard come out of heaven, when we were with him in the holy mount. And we have the word of prophecy made more sure; whereunto ye do well that ye take heed, as unto a lamp shining in a dark place, until the day dawn, and the day-star arise in your hearts (2 Peter 1:16-19, K. V.). To those who believe in the inspiration of the Bible these words are final. Let us therefore note the outstanding features of the Kingdom as displayed in the transfiguration.

I. Jesus Christ the Glorified King on Mount Zion (v. 29).
The glorified King on this Mount was intended to symbolize the Messianic Kingdom when Christ returns to the Mount of Olives in Jerusalem (Zech. 14:4-5). This is still in the future, and will be literally fulfilled.

II. The Glorified Saints With Christ (v. 30, 31).
Moses, who was once deputed an entrance into Palestine, appears now in glory, representing the redeemed of the Lord who will pass through death into the Kingdom. Many thousands of the redeemed have fallen asleep and at the coming of the Lord shall be awakened to pass into the Kingdom.

III. Elijah, now glorified, represents the redeemed who shall pass into the Kingdom through translation. Many shall be living upon the earth when the Lord shall come, and shall without dying be changed and thus pass into the Kingdom (1 Cor. 15:50-53; 1 Thess. 4:14-18).

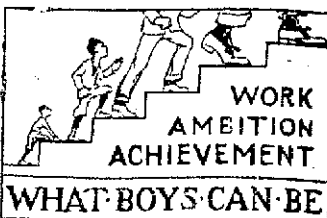

IV. They talk of the very thing which the disciples refused to believe, namely, the death of Christ.

V. Israel, in the flesh, in connection with the Kingdom, represented by Peter, James and John (v. 28). Israel shall be called from their hiding place among all nations of the earth and shall be gathered to Jesus Christ the King, as the central people in the Kingdom (Isa. 37:31-37).

VI. Peter proposes to build three tabernacles (v. 33). The Feast of Tabernacles looked forward to the glorious reign of Christ. Peter caught a glimpse of the significance of the transfiguration. His proposition showed that he thought of the Feast of Tabernacles, and therefore of the Millennium.

VII. The divine voice (v. 35). At this time God himself uttered his words, assuring them that this one in glory was his Son Jesus Christ.

VIII. The multitude at the foot of the Mountain (v. 37-43). This is representative of the nations which shall be brought into the Kingdom which shall be established over Israel (see Isaiah 11:10-12). The people here were previously oppressed by the devil. There are times when the devil is especially active in his oppression of men. About the time of Christ's first coming he did his best to harass men. Just before Christ's coming again he will be especially active, for he knows that his time is short.

THIS COLUMN FOR BOYS AND GIRLS AND PARENTS

WORK AMBITION ACHIEVEMENT
WHAT BOYS CAN BE

A Grain Farmer
BY R. S. ALEXANDER

Would you like to live out on the prairies in the open air the year round? Have you ever thought about being a grain farmer? Well, let's think about it and see what it would be like.

If you are not willing to work long hours and keep on the job all the time or if you are not able to stand up under discouragement and hard luck

you need not think about it. You wouldn't make good. But if you are willing and able to stick your neck out, you will find you have picked a field in which the profits will steadily grow as more and more land is used for gardening and other small scale farm work.

To begin as a grain farmer you should have a high school course and two or three years in college, and a good deal of money to get started. It would be best to go to one school in the great grain-growing section of the middle west. You should also have two or three years of normal work on a grain farm. Of course all this training is not necessary, but it increases by just that much the chance of success.

A good deal of capital with \$5,000 to start—from \$1,000 to \$5,000 is best—as a center and from \$5,000 up to own your own farm. But if you use the mortgage you will be able to get started in this business more easily than in most others.

If you want to find out more about it, write to the Agricultural Experiment Station or the Agricultural College of some state like Iowa, Minnesota, North or South Dakota, Nebraska, Kansas, Missouri, Oklahoma, or Texas and ask them for information. All state experiment stations issue bulletins from time to time which would help you. They could also advise you as to what agricultural magazines would be best to take. In addition the Department of Agriculture, Washington, D. C., would be able to send you bulletins and other information of great value.

Kindergarten Teacher
BY ELIZABETH MATEER

The ambition to become a kindergarten teacher usually comes to a girl when she is four or five years old. After her mother, her kindergarten and primary teachers are the most remarkable women on earth.

As she grows older and has the care of younger brothers and sisters, on endless Saturdays she may question her choice of a life work. How did "Miss Flora" have so much patience and where did she ever find so many interesting things for the children to do?

"Miss Flora," like every successful kindergarten teacher, is a real specialist in child psychology. Part of it she learns from books and teachers during her training course, and part from practical application and teaching of her theories.

There was a day when the middle-aged woman with a love for children could buy a few books of songs and games and open a small, private kindergarten. But the rapid growth of public school kindergartens within recent years has brought a demand for the trained teacher.

A two-year course in an accredited training school is all that is required of the high school graduate. If a girl hopes to become a supervisor or an instructor in a training school, a three-year course and a college diploma will be a great advantage.

It need not be a difficult matter for a girl to attend a kindergarten training school now, as most of the normal schools and state universities have well established courses. Bulletin No. 5 of the U. S. Bureau of Education on Kindergarten Training Schools gives complete information as to schools and courses.

A fondness and sympathy for children is not the only requirement for the girl who undertakes such a course. Musical ability, good health, an even temperament, personal magnetism, and a good general education are almost indispensable.

The need is evident when we consider that there are 3,800,000 children in America for whom no kindergarten has been established. The average salary is from \$1,000 to \$1,200 a year, the same as for an elementary teacher. The satisfaction of giving hundreds of young Americans their start is of course the greatest reward of the kindergarten teacher.

Relieve them immediately and correct them forever by getting at their underlying causes.

You needn't endure those sharp, shooting pains that sometimes suddenly pierce the balls of your feet and cramp the toes!

You needn't endure those dull aches in your feet that tire you—or those callouses on the balls of your feet that make you dread walking or standing!

The causes of these foot troubles are known. Long experience has made possible their relief and correction based on the knowledge of these causes.

And this is the explanation: The arch across the ball of your foot, known as the anterior metatarsal arch, should carry only 1-3 of your weight. But sometimes, because of shoes that are too short or too pointed or because of a sprain or wrench, the arch receives almost all your body's weight.

This unnatural strain upon the anterior metatarsal arch soon causes it to give way. Cramped toes, callouses on the ball, burning or tender spots, pains severe and sharp follow.

Correction that is Natural and Scientific
The correction of this serious trouble is simple and quick.

Dr. Scholl's Anterior Metatarsal Arch Support is especially designed to lift to its normal position this depressed arch across the ball of the foot. Immediately, the cramped toes are given a chance to straighten—the callouses are permitted to heal, the pains do not re-occur.

The cause has been removed!
Know the comfort of having this Anterior Metatarsal Arch Support of Dr. Scholl's. The Graduate Practitioner in the store carrying Dr. Scholl's Foot Comfort Appliances can fit it snugly and comfortably inside your shoe. He understands all foot troubles!

THE UNIVERSAL CAR

There are more than 3,000,000 Ford cars in daily service throughout the world, and fully 80 per cent. of these are Ford Touring Cars. There are many reasons for this, not the least of which is the simplicity and design of the car, so easy to understand; likewise it is easy to operate, and mighty inexpensive compared to other motor cars. The maintenance expense is low, and it has won an unparalleled reputation for satisfactory service during the past sixteen years. On the farm, in the city, for business and for family pleasure, it is the car of the people and the demand is increasing every day. Let us have your order promptly if you want one. We can supply you with most everything in motor car accessories, and we assure you genuine Ford parts and skilled workmen in our repair service.

Any tailor can make clothes. Only master tailors can make a carpenter can make a piece of furniture that may look well and last for a few years. But the furniture that we prize most, the pieces that have been handed down through generations as heirlooms, is the work of real cabinet makers—men who knew wood, how to season and work it according to the grain, and how to join it so the joints would hold. So good clothes are the product of good tailors—STEIN-BLOCH SMART CLOTHES, the product of the best tailors. Every operation, from the shrinking of the woolen to the fastening of the buttons, is the work of an artist in his special field—each doing his bit for the ultimate accomplishment of the perfect whole.

NEWS OF OUR NEIGHBORS CURWENSVILLE

Dr. Miles Wall spent the greater part of the week in Pittsburgh and vicinity.

J. A. McDonald, who is engaged in spent several days this week visiting with his brother Wm. McDonald, on Ridge avenue.

Some one poisoned the large valuable dog belonging to John P. Irvin. The owner would have refused \$300 for the animal any time. The dog was a gentle and intelligent one and seemed to understand man's language as well as his own. The poisoning of a dog is a dirty trick whoever engages in it.

Mrs. William Twig, Sr., and daughter, Miss Esther, spent the week visiting with relatives in Sandy Ridge.

The order of Royal Arcanum will soon have a large class ready for membership. The K. of P.'s will also initiate a class of new members sometime during the month of December.

It will be noticed in the list of real estate transfers published that Mrs. Marie McClure has sold to T. P. McClure a plot of ground in Curwensville for \$100.

GRAMPIAN

Mrs. W. W. Spencer, of Wilkesburg who spent the week visiting relatives and friends here returned to her home on Saturday.

D. R. Wertz has his building ready for the planter.

Oral and sister Neva Spencer left for Pittsburgh on Saturday where they expect to get employment.

The farmers up in this section are looking for corn huskers so that they can get their work done.

The ladies of the W. C. T. U. held an entertainment and social Wednesday.

DIPPING CHICKENS FOR LICE

Likely to Become More General Than Dipping Cattle Because Pests Are More Numerous.

(Prepared by the United States Department of Agriculture.)
"Dip that chick!" It isn't done just for the sake of making a rhyme for "dip that tick," either. Dipping chickens is likely to become more general than dipping cattle, because the chicken louse is a more widely distributed insect than the cattle tick. The "dip" consists of 1 ounce of sodium fluoride to the gallon of water, which should be at a temperature of 70 to 85 degrees. The dipping should be done on a clear, warm day—never on a cold day. The old way of getting rid of chicken lice was by dousing with dry sodium fluoride. It was effective, but in the case of large flocks it was slow and wasteful, a great deal of the dusting material being inevitably lost. Recent dipping experiments proved successful, and the results promise a sure and speedy means of getting rid of one of the worst pests of poultry.

UP-TO-DATE SUMMER HOUSES

Colony Plan of Housing Poultry May Be Adopted to Advantage on a Great Number of Farms.

(Prepared by the United States Department of Agriculture.)
The curtain-front or partial open-front house is conceded to be the best type for most sections. The colony plan of housing poultry may be adopted to advantage on many farms. This system does away with the danger of tainted soil.

The roosts should be built on the same level, 3 feet from the floor, with a dropping board about 6 inches below them. Good roosts may be made of 2 by 2 inch material with the upper edges rounded.

The nests may be placed on the side walls or under the dropping boards. It is best to have them darkened, as the hens prefer a secluded place in which to lay.

Let the hens help themselves to a fry mash.

Market white-shelled and brown-shelled eggs in separate packages.

Whip or deliver eggs at least twice or three times weekly.

Call the flock so as to eliminate the early molters and other unprofitable producers.

day night. The program was fine and every one who was present enjoyed having had a good time. The program band was present and played several selections.

Paint Your Car While the Roads Are Bad

Now's the time that you can paint your car and have it ready for the time when the roads are more rideable. You know we have a special ten-day service that enables you to run your car in here Saturday of one week and run it out again on Wednesday of the week following.

We have this service at your service—a service that is worth time and money to you.

SALTS FINE FOR ACHING KIDNEYS

We eat too much meat, which clogs kidneys, then back hurts and bladder bothers you.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull pain in the kidney region, severe headaches, rheumatic twinges, torpid bowels, acid stomach, flatulencies, and all sorts of minor disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then be all right. This famous salt is made from the acid of grapes and lemon juice, combined with bicarbonate to make a flush clogged kidneys, and stimulate them to normal activity. It also neutralizes the acids in the blood, so it no longer irritates the delicate bladder discharges.

Jad Salts is harmless, but it makes a delicious all-around tonic water drink which is a good habit to take now and then to keep your kidneys clean, thus avoiding all kidney complications.

A well-known fact, however, is that he gets less of Jad Salts than he needs, while it is only a matter of time before he gets into trouble.

THIS WOMAN...

Many people know that during the Great War, when Canada threw her resources into the war, she was the first to offer civilization, this woman was an exception, because most of the men went to the front. The call came to get them, they lowered almost to a man.

ROYAL NORTHWEST MOUNTED POLICE AGAIN ORGANIZED

Perhaps the most famous body of men ever organized with proper law enforcement in the world is the Royal Northwest Mounted Police. Now they have a new organization, the Royal Northwest Mounted Police, which is a world-wide and has won reputation for daring and tenacity. It is a body of men who have been organized in British Columbia after a man, either he comes back with the fugitive, or he or his country is dead.

Few people know that during the Great War, when Canada threw her resources into the war, she was the first to offer civilization, this woman was an exception, because most of the men went to the front. The call came to get them, they lowered almost to a man.

Now that the war is over, the men, mostly returned soldiers, are organized in this organization, the Royal Northwest Mounted Police, which is a world-wide and has won reputation for daring and tenacity. It is a body of men who have been organized in British Columbia after a man, either he comes back with the fugitive, or he or his country is dead.

Few people know that during the Great War, when Canada threw her resources into the war, she was the first to offer civilization, this woman was an exception, because most of the men went to the front. The call came to get them, they lowered almost to a man.

Simon Gunst

As an instance of the respect in which the Royal Northwest Mounted Police is held, an Indian trader in the Northwest, who has been in the business for thirteen years, has been reported that the men of the Mounted Police are the best of the Pacific Coast.

THE ROAD TO SUCCESS

Here Is Your Opportunity!

The Glass Casket Corporation, Altoona, Pa. OFFERS COMMON STOCK AT \$15 PER SHARE

Our Factory Near Completion

Four main buildings of steel and brick construction are entirely erected. The great glass furnace itself is at this date entirely finished, at a cost of \$50,000. The annealing oven is completed. The mold and large press for the production of a six foot casket are ready for delivery. When the work is finally finished, Altoona will have one of the most modern glass plants in America, equipped to manufacture a variety of heavy glass articles, but principally GLASS CASKETS.

A visit to our plant will be well worth your time. It is located in Altoona,—at Thirty-seventh and Beale Avenues. We cordially invite all who may be interested, to inspect this factory,—and if you will notify us will be glad to take you there and extend every courtesy.

GRASP your opportunity NOW!

Apply The Acid Test

The Glass Casket Corporation invites the most rigid investigation. It welcomes visitors to its office and its plant. It will furnish the fullest information by direct word of mouth, by mail, by telephone. You can apply the ACID TEST for yourself.

Ask who are the men at the head of the Corporation. Satisfy yourself that they are ADLE and HONEST; that they have won standing as SUCCESSFUL business men.

Ask what the glass burial casket is. See whether it is what we claim.

Ask just how your money is to be employed and how soon profits may be expected and how large they may be.

Ask EVERY question a careful investor should ask, and do not buy unless you are FULLY satisfied with the information you receive.

We do not fear the verdict.

A Few Hundred Dollars Invested Now May Mean Independence for You

Fortunes Have Been Made by Foresighted Investors in New Enterprises

They "got in on the ground floor" while others looked on and feared the outcome

It is almost impossible to trace the enormous profits received on the dollar of the original investment in the following inventions. Here are a few available figures, that are reliable as far as we are able to ascertain:

\$100 invested in Toledo Glass (Owens Bottle) earned	\$ 13,000
\$100 invested in Burroughs Adding Machine, earned	43,840
\$100 invested in Welsbach Mantle, earned	50,000
\$100 invested in National Cash Register, earned	42,870
\$100 invested in Mergenthaler Linotype, earned	125,000
\$100 invested in Bell Telephone, earned	201,000
\$100 invested in American Radiator, earned	49,000
\$100 invested in Janney Coupler, earned	18,630
\$100 invested in Westinghouse Air Brake, earned	47,836
\$100 invested in Duplex Rubber Tire, earned	50,000
\$100 invested in Underwood Typewriter, earned	38,300
\$100 invested in Eastman Kodak, earned	60,000
\$100 invested in Delong Hook and Eye, earned	10,000
\$100 invested in Reo, earned	30,000

\$100 invested in Overland, earned	\$ 20,000
\$100 invested in Ford, earned	250,000
\$500 invested in Postum Cereal, earned	50,000
\$500 invested in Cream of Wheat, earned	60,000
\$500 invested in American Sugar Refining, earned	110,300
\$500 invested in Horlick's Malted Milk, earned	140,000
\$1,000 invested in Akron Rubber, earned	150,000
\$1,000 invested in Fisk Tire, earned	120,000
\$1,000 invested in the Goodyear Co., earned	250,000
\$1,000 invested in Goodrich Tire, earned	605,000
\$1,000 invested in Saxon, returned in 2 years	12,000
\$1,000 invested in Chandler, returned in 3 years	35,000
\$1,000 invested in Stutz, returned in 4 years	45,000
\$1,000 invested in Chalmers, returned in 3 years	21,620
\$1,000 invested in Chevrolet, returned in 7 years	280,000

Only Common Stock will be issued! No Preferred Stock! No Bonds! Every Stockholder will share in Every Cent of the Corporation's Future Investment in this Project!

MEN YOU CAN TRUST head the Glass Casket Corporation. The officers and directors of our corporation are men of known integrity and ability. They are well known to the banks and business men of Altoona, and enjoy enviable reputation in their own communities.

MAIL THIS TODAY GLASS CASKET CORPORATION

Altoona, Penna.

Gentlemen:—Send me your free booklet, "The Modern Way" giving facts and figures on the glass burial casket and your Corporation's plans for the manufacture of it and other glass articles. This is without obligation to me, of course.

NAME

Address

Large Caskets on Display

Commercial size caskets are on display in our office. Call and see them. They will convince you beyond a question of doubt that glass caskets will absolutely take the place of all metallic, bronze, steel or concrete caskets, for the reason that they will be air-tight, water-tight, and vermin-proof. They will be lighter in weight and far less expensive—and everybody knows that glass will last for ages, while steel or concrete will rust and corrode with time.

Glass caskets will be sold in competition with the best grade of wooden caskets. They are far more beautiful, more sanitary, and equally practical in every way. The weight of a six foot glass casket will be less than 300 pounds, which is approximately the same weight as an oak burial case of the same size.

Pages can't show pictures of the beauties of glass caskets—but a short visit to our offices will convince you that this is YOUR opportunity for a good investment.

Telephone, write or call for the free booklet, "The Modern Way." Do it TODAY. Get the FACTS and FIGURES before you and make your decision. The Glass Casket Corporation gives you a chance to invest your SMALL savings, the "spare change," that otherwise slips through your fingers and is wasted. Our EASY TERMS open up to the man or woman of average income a chance to the MANUFACTURER'S profits that usually are open to the rich.

WEARY WANDERERS
RETURN HOME FULL
OF CANNED PEACHES

A couple of 16-year old Clearfielders are back in the bosoms of their respective families mightily glad to again slide their No. 9's under pap's mahogany three times per when square meal time arrives.

Some few weeks ago these lads decided to see the world or as much hereof as could be properly glimpsed from a car window twist Clearfield and Akron, Ohio, the city of rubber, where all youthful Clearfielder's hike for to rubber on their maiden tour of investigation.

The high cost of living in the rubber city soon gobbled up their financial capital and the longer became the interval between meals the shorter appeared the distance back home to the hungry, homesick adventurers.

A council of war last Sunday decided upon a return to home and mother and as railroad tickets were beyond reach the more inconvenient but easier obtainable side door pullman was the means to the now much-desired end. The boys hit a freight to Ashtabula and transferred to the Lake Shore and sneaking into a produce car snuggled down out of sight in a dark corner.

Shortly after the boys got located the trainmen came along, shut and sealed the car and the journey back home was resumed with the lads corked up tight.

Some time Tuesday evening the train rolled into the N. Y. C. yards here and the 48-hour prisoners sure did put up a howl for the purpose of attracting the attention of the yard men to their plight.

The course of the commotion within the car was located and Railroad Officer Hackett, the only man with authority to break the seal of the car, was sent for. He arrived and soon the weary travelers were breathing Clearfield air again.

During their enforced detention they lived on a few canned peaches taken from a consignment traveling with them and after settling for the provender were started home rejoicing and promise to never wander from their own fireside again.

Gossip for
Tonight's
Tea Table

Miss Genevieve Halford entertained the F. F. club last evening at her home on Third street. Dainty refreshments were served.

Gilbert Landy, of Pittsburgh, is spending a few days with his fiancée, Miss Esther Robinson.

Mrs. J. M. McKinley, of Curwensville, was shopping in town yesterday. Dick Martin is spending the week end with his parents in Williamsport.

Miss Pearl Orr, of Glen Richey, is spending the week end with Miss Helen O'Brien on Fourth street.

Mr. McCausland, of Houtzdale, is the week end guest of Emory Hartman on Second street.

Mrs. Joe Dunmore and daughter Dorothy, of Phillipsburg, spent yesterday with friends here.

Mr. Rosenbaum, of Philadelphia, was the guest of M. D. Robinson yesterday.

Mr. and Mrs. A. M. Kirk, of Curwensville, were shopping in town yesterday.

Miss Francis Geppert has returned from visiting with relatives in Atlantic City.

Miss Olive Forcey was shopping in town today.

Miss Alice Truby has returned from spending a few days with friends in Pittsburgh.

Misses Gretchen Hills and Emma Levegood are spending the week end with the former's parents in Jersey Shore.

James Lytle, of Johnstown, transferred business in town yesterday.

Mrs. B. Pearlman and daughter, Miss Sadie, of Pittsburgh, are guests at the home of Louis Shapiro on Cherry street.

Mrs. Wright Bigler has returned from Pittsburgh, where she attended the D. A. R. Convention.

Mrs. C. R. McQuown arrived yesterday from Canada, and will spend some time with friends and relatives here.

Mrs. E. B. Ferguson and daughter Rebecca are spending the day in Altoona.

Misses Gretchen Hills and Emma

ODD FELLOWS WILL
WELCOME SERVICE
MEN THURSDAY!

Clearfield Lodge of Odd Fellows are preparing for one of the great functions in the local history of the order and that is saying a great deal as the local lodge has been a leader in successful social affairs in Clearfield fraternities. Next Thursday evening, November 20th, the lodge will celebrate the home coming of its sixty three service men and formally extend to them a hearty welcome via the banquet table and the speech making route. The affair will be held at the Hotel Dimeling Ball room at eight o'clock. Music will be furnished by Knights Saxophone Orchestra. There will be a program of speeches, and entertainment headed by Fred T. McCallum of Oil City, who is a prominent Odd Fellow and President of the Meadville Orphans Home, one of the notable charities of Odd Fellowship. Mr. McCallum is a speaker of some note.

Wm. P. Sheeder, active in the promulgation of Odd Fellow doctrine will essay the role of Toastmaster. The welcome home to the service men will be held also as the 73rd anniversary of the order in this city and also the one hundredth anniversary of Odd Fellowship throughout the world. In order that all members and their ladies may be present a young lady will be present to take charge of all children for parents wishing to attend. Over three hundred members and friends are expected to be present.

MISS BLANCHE HOOVER DIES

Miss Blanche Hoover, daughter of Mrs. Z. L. Hoover, died at the home of her mother on West Third Avenue at 1 o'clock this morning, aged about 26 years. The deceased had been a sufferer from asthma for some time but her death was rather sudden and unexpected.

She was a consistent member of the Lutheran church and was loved and respected for her fine Christian character by all who knew her. She is survived by her mother, one brother, Z. Leslie Hoover, of New York and one sister, Miss Cora, at home.

The funeral will occur Monday afternoon from her late home and interment will be made at Lumber City.

TRINITY METHODISTS
CELEBRATE "FATHER
AND SON DAY"

Sunday's services in Trinity church have been planned with special reference to the men and boys of the congregation.

The Sunday school session will open at 9:30 A. M. with L. W. Lawrence directing the music. Mr. Lawrence had a year's experience as camp song leader, and knows the "bug" business. He will be supported by a good orchestra and that means some great music. Howard Stewart will be the acting superintendent for this boys' session and the other several offices of the school will be "manned" by boys from twelve to eighteen years of age.

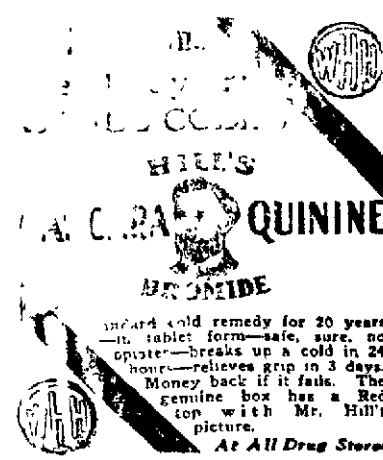

The morning sermon by the pastor will be especially to the men and boys. The conclusion of the father and son celebration be an elaborate banquet on Tuesday evening at eight o'clock when about two hundred and fifty men and boys will have a delightful social time.

THREE BIRTHDAYS ON SAME
DAY

Mr. and Mrs. Clyde Bailor entertained old Dr. Stork at one o'clock this morning and the old gentleman had again taken his leave and winged his way toward "liddleland" the Bailors found their family had increased one member. This arrival makes the third child in the Bailor family which came into the world on November 15th and that date is getting to be a real family birthday in the Bailor home.

WEST SIDE M. E. CHURCH

9:30 Sunday School
10:45 Preaching
Shall West Side go on Strike?

C. C. Shively, Pastor

Lovegood entertained last evening at a dinner at the former's home on Second street.

Miss Corinne Rath, of Curwensville, is the week end guest of Miss Amelia Kolbe.

Mrs. Grant Kendrick and son Grant Jr., have returned to their home in Sewickley, after visiting with their parents, Mr. and Mrs. George Johnson.

Miss Katherine Ward, of DuBois, is spending the week end with relatives here.

Miss Hazel Murray, a prominent young lady from Jersey Shore, has accepted a position with the New York Central Railroad Company at this place. Miss Murray was formerly employed by the Assistant Superintendent of the New York Central Railroad at Jersey Shore.

Mrs. W. E. Kratzer attended the funeral of the late Mrs. S. C. Bradford at Odessa Thursday.

"Statchey" Ayers, a former well known Clearfielder, who now lives at

CREAM FOR CATARRH
OPENS UP NOSTRILS

Tells How To Get Quick Relief
from Head-Colds. It's Splendid!

In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more hawking, snuffing, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh will be gone.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relieves instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh—Relief comes so quickly.

A. W. LEONARDSON CO.

Williamsport, was visiting old friends hereabouts today.

Mr. and Mrs. R. D. Sheshe, left today for Elmira, N. Y., to spend several days with relatives.

Mr. and Mrs. L. C. Norris returned home yesterday from Milton, where they had spent the past week. They were accompanied to Clearfield by their daughter Mrs. Alice Helton, who will move her household effects here and again make her home with her parents.

The friends of Miss Veronica Shade held a surprise party in honor of her fourteenth birthday at her home on Eighth street. She received many beautiful presents. Delicious refreshments were served.

ENGLISH LUTHERAN CHURCH

The Sunday school of the English Lutheran church will observe Father and Son day tomorrow at 9:15. A special program has been prepared and all fathers and sons are welcome. Also the sermon following will be on the same subject.

HUNTING WILD TURKEYS

County Treasurer A. L. Kline, Leslie Stewart and M. T. Bowman went over to Markelsburg, Huntingdon county, Friday to be present at the opening of the wild turkey hunting season this morning.

BAPTIST CHURCH

Rev. I. N. Kline will preach in the Baptist church tomorrow at 11:00 o'clock a. m. and 7:30 p. m.

What Do Advertisements
Mean To You?

Do you really appreciate what the advertisements mean to you? They are not there to flaunt this man's and that man's selfish plans for profit.

The advertisement of today is the honest merchant's or manufacturer's best methods of multiplying by thousands of times an interesting message. He has learned from long experience—his own and that of others—that what he has to say must prove interesting and satisfactory to you, else it were better left unsaid. He has learned that his advertising will not pay him unless it tells you about good things that you really want to have.

This is why you will find it profitable to read the advertisements regularly. Perhaps you do. But read them with an appreciation of just what the development of honest, truthful advertising has meant in smoothing out some of the kinks of your daily routine.

Think how much they save you in time, steps, trouble and money in buying things you must have to live a healthy, happy, comfortable, modern life.
